

ShiftPartner Care Delivery Platform pricing

[Prices are applicable for FY 2026/27]

ShiftPartner's Care Delivery Platform (CDP) is a multi-tenant platform for organisations requiring a flexible, intuitive, easy to deploy solution to support occupational and/or public health delivery of appointment-based care.

Key features

Key features of the CDP include:

- rapid creation of fixed, pop-up and point-of-care treatment delivery approaches;
- flexible appointment schedules to cater for all eventualities;
- end-user email and SMS notification alerts and advice;
- configurable inclusion/exclusion questionnaires and consent forms;
- configurable permission-based manager roles; and
- integration to pathology and NHS spine capabilities.

Subscription pricing

Price includes:

1. 5 virtual set-up sessions;
2. free virtual ongoing support; and
3. unlimited user accounts

The monthly subscription model is based on organisational workforce size (bands available on request). Indicative base pricing:

- Small organisations: £5,000 pcm
- Medium organisations: £10,000 pcm
- Large organisations: £15,000 pcm
