

PARICO

G-Cloud 15: Service Definition Document

Generation After Next Cross-Domain Interoperability Service

Parico provide a high-performing, self managed and disciplined, suitability qualified and experienced technical team that can deliver rapid proof-of-concept, Cross-Domain Interoperability services with our next-generation Interoperability Engine. We deliver secure, NCSC assured, Low, Medium and High Assurance non-real-time and real-time Interoperability services across security classification boundaries.

FEATURES

- Expertise in gateway solutions with high-side and low-side user communities
- Enables information sharing within government/intelligence agencies
- Provides a controlled interface enabling access/transfer of information between domains
- Multi-enclave and multi-compartment-controlled information sharing
- Produce high and low-level system and solution designs
- Information is protected at rest/in transit across all domains
- Complies with the NCSC Data Import and Export architectural patterns
- Automation and Orchestration built into the core service offering

BENEFITS

- Experience of the air, land and maritime deployed operations environments
- Flexible, agile, approach to service delivery
- Track record of successful rapid capability development
- Determine compliance with GDS Service Standard
- Knowledge transfer, improving in-house capability to drive long-term sustainability
- Independent and vendor neutral
- SC and DV cleared suitability qualified and experienced technical resources
- Enables collaboration with less trusted organisations
- Provide a collaboration mechanism within complex and secure environments
- Eliminates manual data transfer processes
- Simple integration with existing OFFICIAL and SECRET capabilities

Established in early 2018, our primary goal at Parico is to develop a positive reputation across the defence sector, as a UK SME Technology Disruptor within Public and Private Sector organisations.

At Parico, we're incredibly passionate about our people and encourage the development and growth of our engineering community. Every Parico Rockstar has the freedoms to innovate and develop the next generation of disruptive products and services for our customers.

As an SME, we're able to respond to our customers requests quickly and efficiently, embracing Agile working practices across our entire organisation.
