

PARICO

G-Cloud 15: Service Definition Document

Test Management Service for Digital Projects and Programmes

Parico's Test Management service provides customers with a range of support options; from producing test and acceptance strategies, Test Plans and developing Use Cases, through to detailed planning, conduct, analysis and reporting of technical performance and user focused tests and trials of cloud-based solutions.

FEATURES

- Development of Test Strategies, Test Plans (ITEAP) and Use Cases
- Proficient in all aspects of Acceptance testing - FAT/SAT/UAT
- Non-functional testing expertise: interoperability, resilience/failover, usability, scalability, availability and security
- Automated Testing for Functional and Non-Functional testing where possible
- Test/trials in support of defence deployed programmes; Technical Field Trials
- Relevant domain and industry-recognised qualifications: ISTQB, Defence Trials Management
- Test professionals work closely with customers to deliver business-focused testing
- Rich knowledge transfer, enabling internal teams to maintain cloud-environment testing

BENEFITS

- Testing conducted by trained, skilled, engineers with domain knowledge
- First-hand experience of conducting defence FAT, SAT and UAT
- Verification and validation of solutions by an independent team
- Confidence that user and system requirements have been satisfied
- Test Management expertise across the Testing Life Cycle
- Assurance that cloud services meet business needs
- Reliable outputs through the provision of robust test governance
- On-Demand testing to suit need and budget requirements
- Data Migration testing ensures data transfer is accurate and clean
- SC and DV cleared Test Management and Test Engineer professionals

Established in early 2018, our primary goal at Parico is to develop a positive reputation across the defence sector, as a UK SME Technology Disruptor within Public and Private Sector organisations.

At Parico, we're incredibly passionate about our people and encourage the development and growth of our engineering community. Every Parico Rockstar has the freedoms to innovate and develop the next generation of disruptive products and services for our customers.

As an SME, we're able to respond to our customers requests quickly and efficiently, embracing Agile working practices across our entire organisation.
