2. BASIS OF CONTRACT

- 2.1. The RFP constitutes an offer by the Client to purchase Services in accordance with these Conditions.
- 2.2. Following receipt of an RFP and the information requested from the Client, CODA shall, as soon as reasonably practicable either:
 - 2.2.1. inform the Client that it declines to provide the requested Services, or

The Client's order for the Services shall only be deemed to be accepted when CODA issues written acceptance of the order to the Client or commences performance of the Services, whichever happens sooner, at which point and on which date the Contract shall come into existence ("Commencement Date").
- 2.5. Following the Commencement Date, the parties may agree specific scopes of work from time to time for how the Services specified in the Proposal are to be performed for the Client (each a "Scope of Work"). Each Scope of Work shall, upon signature by both parties:
 - 2.5.1. be legally binding between the parties, form part of the Contract and be subject to the terms of the Proposal and these Conditions.

They shall not form part of the Contract or have any contractual force.
- 2.7. These Conditions apply to the Contract to the exclusion of any other terms that the Client seeks to impose or incorporate, except where required by the laws of England and Wales, or where mutually agreed in writing between both parties, such as a mutual NDA, for example.

In this event, the Client shall be responsible for the retention and distribution of any testing materials and Reports.
- 3.8. The client further acknowledges that they understand that any risk levels recommended by CODA are advisory: based on the perspective from which assessment activities were conducted and the evidence available at the time. It is expected that the client's own internal risk management processes will include an evaluation of the risk levels recommended and adjustment according to their own internal risk appetite and knowledge of potential compensatory controls - the presence of which CODA was unaware or unable to verify.
