What is Data Groundwork?

Data Groundwork is an online learning platform that helps technical and non-technical staff to improve their data literacy. It enables them to assess where they are with their data literacy skills and to use various content, tools and training modules to support their learning and development.

About us

R E G I S T E R
D Y N A M I C S

Register Dynamics is an independent data and technology consultancy based in the UK. We are a team of technical, data and business specialists working with public and private organisations to support them with their technical and data challenges.

We also offer more traditional data consultancy across the following strategic areas: Data strategy, Digital transformation, Data governance and Building data maturity as well as in operational areas such as: Data management, Data cataloging and cleansing, Data standards, Technical assurance.

We pride ourselves on supporting organisations to drive their data agenda forwards. This includes implementing data and analytics strategies to boost data intelligence, building data capability that drives business value, establishing good data governance and nurturing a data-driven culture.
