

16 The Innovation Centre,
Queens Rd, Belfast, BT3 9DT.

The Palo Alto Cortex XSIAM platform is designed to be scoped to each organisation's specific environment and operational objectives. As such, commercial details are determined by factors including architecture, data ingestion volumes, and the overall security outcomes being targeted.

We would be pleased to work with you to define the appropriate scope and produce a precise, fully costed proposal. Our team is available to support any clarification or discuss your technical and commercial needs. Please contact us at hello@viatel.com to begin the process.
