

Leading Cybersecurity for Public & Private Bodies

Viatal Technology Group is the trusted cybersecurity partner for public and private sector organisations across the UK. As part of our continued growth, we deliver a comprehensive suite of solutions spanning strategic consultancy, advanced IT/OT security, deep compliance expertise, and seamless SASE deployment. Backed by decades of expertise and a team of specialists, we combine cutting-edge solutions with hands-on support to keep your organisation secure, agile, and ahead of evolving threats.

Comprehensive, best-in-class cybersecurity

Viatal Cyber is a leading provider of a full suite of cybersecurity solutions, managed services, and professional services.

Deep expertise in regulated sectors

Our cyber team specialises in complex IT/OT environments and has deep expertise in regulatory frameworks and compliance programmes, such as NIS2.

Diverse customer base

We support clients in central government, criminal justice, utilities, health, financial services, and private sector.

Unmatched trust and assurance

Our cyber staff are subject to Government security vetting. Our services are backed by industry-leading certifications including ISO 27001, IASME Audited, and Cyber Essentials+.
