QuickCase Case Management

QuickCase is Elastic Case's flexible case management solution available either as SaaS on multi-tenant infrastructure or self-hosted.

Self-Hosted

QuickCase Self-Hosted is available through a yearly subscription, priced at £85,000 per year. Flexible monthly payment options can be arranged.

The subscription includes:

- Licence to use the solution, no user limit
- Access to maintenance releases (security patches, bug fixes, minor features)
- Access to new releases (major features)

SaaS

Because QuickCase is tailored to your specific needs, so is our pricing. You get a perfect-fit solution without paying for features you don't use. Our pricing model is a simple, two-part quote.

Bespoke configuration

We work with you to understand your exact process and requirements. Based on this, we provide a fixed, one-time quote for the initial configuration and set-up. There are no hidden costs.

Fixed monthly fee

Once your tailored solution is live, you pay a predictable, all-inclusive monthly fee. This covers secure hosting, maintenance, automatic updates, and ongoing support.

Support

Standard (Self-Hosted)

Our standard support package to complement a mature installation of QuickCase Self-Hosted case management solution.

£5,500 per month (£66,000 p/a), includes:

- 9-5pm (UK), Monday to Friday, cloud support team
- Helpdesk portal with knowledge base
- Tickets via email and portal
- Ticket types:
 - Technical: bug report, security fixes
 - Configuration Q&A
 - Webhooks/integration Q&A
 - Deployment Q&A
 - Not included: Feature requests, 1st/2nd level support (see [Early life](#) for initial production support)

Early life

Our enhanced support package to accompany you in the first months of adopting QuickCase case management solution.

Quoted on demand for time & materials based on team profile requested, using standard rates from our [Professional Services](#).

Typically includes:

- 9-5pm (UK), Monday to Friday, dedicated support team
- 1 to 3 months
- Level 1 & 2 support included
- Face-to-face and online training

Integrations and bespoke development

Design and implementation of bespoke integrations between QuickCase and 3rd-party services and of bespoke development extending QuickCase will be quoted on demand for time & materials based on requirements using standard rates from our [Professional Services](#).

Appendix A - SFIA levels definitions

	Autonomy	Influence	Complexity	Business skills	Knowledge
1. Follow	Works under close direction. Uses little discretion in attending to enquiries. Is expected to seek guidance in unexpected situations.	Minimal Influence. May work alone or interact with immediate colleagues	Performs routine activities in a structured environment. Requires assistance in resolving unexpected problems. Participates in the generation of new ideas.	• Has sufficient oral and written communication skills for effective engagement with immediate colleagues. • Uses basic systems and tools, applications and processes. • Demonstrates an organised approach to work. Has basic digital skills to learn and use applications and tools for their role. • Learning and professional development — contributes to identifying own development opportunities. • Security, privacy and ethics — understands and complies with organisational standards.	Has a basic generic knowledge appropriate to the area of work. Applies newly acquired knowledge to develop new skills.
2. Assist	Works under routine direction. Uses limited discretion in resolving issues or enquiries. Determines when to seek guidance in unexpected situations. Plans own work within short time horizons.	Interacts with and may influence immediate colleagues. May have some external contact with customers, suppliers and partners. Aware of need to collaborate with team and represent users/customer needs.	Performs a range of work activities in varied environments. May contribute to routine issue resolution. May apply creative thinking or suggest new ways to approach a task.	• Has sufficient oral and written communication skills for effective engagement with colleagues and internal users/customers. • Understands and uses appropriate methods, tools, applications and processes. • Demonstrates a rational	Has gained a basic domain knowledge. Demonstrates application of essential generic knowledge typically found in industry bodies of knowledge. Absorbs new information when it is presented

	Autonomy	Influence	Complexity	Business skills	Knowledge
				and organised approach to work. • Has sufficient digital skills for their role. • Learning and professional development – identifies and negotiates own development opportunities. • Security, privacy and ethics – is fully aware of organisational standards. Uses appropriate working practices in own work.	
3. Apply	Works under general direction. Receives specific direction, accepts guidance and has work reviewed at agreed milestones. Uses discretion in identifying and responding to complex issues related to own assignments. Determines when issues should be escalated to a higher level. Plans and monitors own work (and that of others where applicable) competently within limited deadlines.	Interacts with and influences colleagues. May oversee others or make decisions which impact routine work assigned to individuals or stages of projects. Has working level contact with customers, suppliers and partners. Understands and collaborates on the analysis of user/customer needs and represents this in their work. Contributes fully to the work of teams by appreciating how own role relates to other roles.	Performs a range of work, sometimes complex and nonroutine, in a variety of environments. Applies a methodical approach to routine and moderately complex issue definition and resolution. Applies and contributes to creative thinking or finds new ways to complete tasks.	• Demonstrates effective oral and written communication skills when engaging on issues with colleagues, users/customers, suppliers and partners. • Understands and effectively applies appropriate methods, tools, applications and processes. • Demonstrates judgement and a systematic approach to work. • Effectively applies digital skills and explores these capabilities for their role. • Learning and professional development – takes the initiative to develop own knowledge and skills by	Has sound generic, domain and specialist knowledge necessary to perform effectively in the organisation typically gained from recognised bodies of knowledge and organisational information. Has an appreciation of the wider business context. Demonstrates effective application and the ability to impart knowledge found in industry bodies of knowledge. Absorbs new information and applies it effectively.

	Autonomy	Influence	Complexity	Business skills	Knowledge
				identifying and negotiating appropriate development opportunities. • Security, privacy and ethics – demonstrates appropriate working practices and knowledge in non-routine work. Appreciates how own role and others support appropriate working practices.	
4. Enable	Works under general direction within a clear framework of accountability. Exercises substantial personal responsibility and autonomy. Uses substantial discretion in identifying and responding to complex issues and assignments as they relate to the deliverable/scope of work. Escalates when issues fall outside their framework of accountability. Plans, schedules and monitors work to meet given objectives and processes to time and quality targets.	Influences customers, suppliers and partners at account level. Makes decisions which influence the success of projects and team objectives. May have some responsibility for the work of others and for the allocation of resources. Engages with and contributes to the work of cross-functional teams to ensure that customers and user needs are being met throughout the deliverable/scope of work. Facilitates collaboration between stakeholders who share common objectives. Participates in external activities related to own specialism.	Work includes a broad range of complex technical or professional activities, in a variety of contexts. Investigates, defines and resolves complex issues. Applies, facilitates and develops creative thinking concepts or finds innovative ways to approach a deliverable.	• Communicates fluently, orally and in writing, and can present complex information to both technical and non-technical audiences when engaging with colleagues, users/customers, suppliers and partners. • Selects appropriately from, and assesses the impact of change to applicable standards, methods, tools, applications and processes relevant to own specialism. • Demonstrates an awareness of risk and takes an analytical approach to work • Maximises the capabilities of applications for their role and evaluates and supports the use of new technologies	Has a thorough understanding of recognised generic industry bodies of knowledge and specialist bodies of knowledge as necessary. Has gained a thorough knowledge of the domain of the organisation. Is able to apply the knowledge effectively in unfamiliar situations and actively maintains own knowledge and shares with others. Rapidly absorbs and critically assesses new information and applies it effectively

	Autonomy	Influence	Complexity	Business skills	Knowledge
				and digital tools. • Contributes specialist expertise to requirements definition in support of proposals • Shares knowledge and experience in own specialism to help others. • Learning and professional development – maintains an awareness of developing practices and their application and takes responsibility for driving own development. Takes the initiative in identifying and negotiating their own and supporting team members' appropriate development opportunities. Contributes to the development of others. • Security, privacy and ethics – fully understands the importance and application to own work and the operation of the organisation. Engages or works with specialists as necessary	
5. Ensure, advise	Works under broad direction. Work is often self-initiated. Is fully responsible for meeting allocated technical and/or group objectives. Analyses,	Influences organisation, customers, suppliers, partners and peers on the contribution of own specialism. Makes decisions	Implements and executes policies aligned to strategic plans. Performs an extensive range and variety of complex technical and/or professional	• Demonstrates leadership in operational management. • Analyses requirements and advises on scope and options for continual	Is fully familiar with recognised industry bodies of knowledge both generic and specific, and knowledge of the business, suppliers,
