Product Add-ons.

Agent Telephony Workflow

This add-on enables you to take secure card payments over the phone, allowing agents to guide callers through keypad entry while the payment is processed securely and automatically linked to the booking in real time.

£10,000/pa

Drupal Workflow

This integration allows customers to view live availability from the booking system within a calendar on your Drupal site and complete a booking directly on the page without being redirected.

£5,000/pa

Data Service

This add-on allows teams to push booking data into Power BI to create advanced, custom dashboards and deep analytical views. Note: the system already includes in-depth reporting that meets the needs of most local authorities.

£5,000/pa

All other off-the-shelf features are included as standard within each product, ensuring a complete, ready-to-use solution from day one.

Our Terms.
