Pricing Structure

MetaMail Outbound (MMO) is designed for use in a single building Mailroom. Pricing is outlined below. One time setup fees covers set up, training, Project Management and modules fees. Four carrier integrations from our supported list & five messenger apps included. Options include single sign on & Graphical Reporting (DataSense),

MMO is provided as a Cloud based solution, so you will be able to access this application via the internet. Metafour does not provide PCs, laptops, printers, handheld devices or any other hardware. You should course these outside of any agreement with Metafour.
