Pricing Structure

NetCourier Enterprise Professional fees are outlined below. One 'time set up fees' below covers set up, training, Project Management and modules fees for a global scanning and tracking solution. We have broken down our charges for project management, configuration of templates / ad hoc, scoping days and training. Total onboarding charges, subject to scoping and contract are £205K based on 137 days of our time.

NetCourier Enterprise is provided as a Cloud based solution, so you will be able to access this application via the internet. Metafour does not provide PCs, laptops, printers, handheld devices or any other hardware. You should course these outside of any agreement with Metafour.

One Time Set Up Fees:

Please see Metafour's fixed cost for the one of the charges as follows::

Total Professional fees: £205,000

- System set up
- System training (train the trainer)
- Project Management
- Module fees
