Free API Integrations (where available)

All available API's are provided without additional annual or setup charges. Our API's use OpenAPI (swagger) specifications and are available to any authorised user of the system.

If you would like an API enabled account, please contact support@ascendantsol.co.uk with your dedicated IP address range and an email address for a login account to be created.

Additional support for API integrations and training is available to be purchased through our G-Cloud service “Cloud Engineering and Support Services” if required.

Suggested / Recommended Onboarding for New Buyers

1 day at the “Onboarding” rate is recommended for assisted automation integrations when using our API’s, SFTP’s.

Suggested Training for New Buyers

1 day at the “Training” rate is potentially helpful. A lot of Consumer Data services use similar views, input and output forms therefore training is not always necessary. A lot of self-serve and explanatory assistive prompting exists within the service to aide users of the platform.

The majority of training requirements normally relate to explaining the data in credit reports.
