

AKITA

Intelligent Solutions

Experts in Digital Transformation

With over 20 years of experience in digital success solutions, we design, develop, manage and support business intelligence technologies for organisations across the UK and internationally.

We've worked with some of the world's leading organisations and brands. And our solutions have spanned industries including finance, manufacturing & production, automotive, professional services, retail, legal and more.

Powering Business Transformation

Simplify – Understand processes and remove unnecessary steps

Automate – Replace repetitive tasks and remove the need for interaction

Optimise – Use the right technology to achieve more with the same resources

Unify – Take data out of silo and provide a complete picture of performance
