

About Spinnaker Support

Spinnaker Support delivers expert, independent third-party support tailored for Oracle, SAP & VMware environments. Spinnaker Support empowers your IT team with the flexibility to optimise and innovate confidently on your landscape.

Our Pricing Model

Spinnaker Support offers a transparent and competitive pricing structure for UK public sector clients.

Pricing is tailored based on your environment's complexity, utilisation and stability in addition to contract length, and specific business requirements. These savings unlock budgets for strategic initiatives such as cloud migration and SaaS adoption.

Verified Cost Savings and Business Benefits

- Annual Maintenance Fees: Break/fix support plus tax, legal, and regulatory updates.
- Elimination of Forced Upgrades: Avoid costly vendor-mandated upgrades designed to maintain mainstream support.
- Full Customisation Support: Expert maintenance for your custom modifications not covered by vendor support.
- Internal Efficiency Gains: Decrease resource demands for internal support activities like regression testing and issue assessments.
