| Item                                | Cost    |
|-------------------------------------|---------|
| Annual hosting and maintenance cost | £ 2,750 |

Hanlon Client is a multi site, multi user software solution for employability, health & well-being and economic development programmes.

We work with organisations to configure the system appropriately to their requirements. The cost for configuration is priced separately.

Similarly, the Hanlon Employability Portal can be styled to match the customer's brand guidelines and these costs are also quoted separately on a case by case basis.

## Hanlon Client Case Management Implementation Costs

| Item                                                          | Cost |
