Romano Security Consulting DSP Toolkit Consultancy Service Description

Romano Security Consulting delivers DSP Toolkit consultancy services to help organisations achieve and maintain compliance with the NHS DSP Toolkit. We provide practical implementation support of the 10 National Data Guardian data security standards and guidance through the DSP Toolkit application and submission process.

Romano Security Consulting DSP Toolkit Consultancy Services

Romano Security Consulting currently offer the following DSP Toolkit consultancy services:

DSP Toolkit Compliance and Submission

End to end consultancy advice, guidance and support through the DSP Toolkit application and submission process and implementation of the 10 NDG data security standards, for businesses of all shapes, sectors, and sizes.

- Gap analysis against the requirements of the toolkit
- Assistance with the completion of the required DSP Toolkit documentation and records
- Online submission of the DSP Toolkit

DSP Toolkit Managed Service

Annual DSP Toolkit submission consisting of a gap analysis against the current DSP toolkit requirements, development and management of a corrective action plan, assistance with the staff awareness training survey roll out, production of or updates to the required policy, procedural and evidence documentation, advice and guidance on control implementation and evidence selection and completion of the online DSP toolkit submission.

DSP Toolkit Implementation

If you need require guidance and support through various stages of a DSP Toolkit implementation project e.g. submission, staff training, documentation, standard and framework implementation, business continuity and incident planning, project management.

NHSmail Connection

If you are looking to connect to NHSmail and need some help to complete the DSP Toolkit application and basic DSP Toolkit requirements.

DSP Toolkit Gap Analysis

If you need to measure your current level of compliance against the DSP Toolkit requirements. We assess and report on your current level of compliance with the toolkit and provide recommendation on how to close the gaps.

DSP Toolkit Independent Assessment Audit

It is now a mandatory requirement for the following NHS organisations to complete an annual independent audit assessment as part of their submission:

- NHS Trusts (Acute, Foundation, Ambulance and Mental Health)
- Integrated Care Boards
- Commissioning Support Units
- DHSC Arm's Length Bodies
- IT Suppliers

Romano Security Consulting have the required expertise and experience to conduct an audit of the mandatory scope as set out in the DSPT Independent Assessment Guide, provide you with a comprehensive audit report, recommendations for improvement and submit an independent assessment on your behalf.

Our DSP Toolkit Independent Assurance Audit service helps organisations gain or maintain compliance by completing the required independent audit and assessing your organisation's current internal control environment and current level of compliance against the DSP Toolkit category 1 requirements mandatory audit scope, reporting on the findings, providing recommendations for improvements, and submitting the required external audit report.

The DSP Toolkit Independent Audit service consist of the following:

- pre assessment review of the previous toolkit submission,
- an audit of the mandatory audit scope against the current 26/27 DSP toolkit requirements,
- production of the required audit report, including findings and recommendations for improvements and a risk and confidence evaluation,
- post audit review meeting,
- completion of the online DSP toolkit audit report submission,
- follow up corrective action meetings.
