ISO 27001 Cyber Security Awareness Training Service Description

Our cyber security awareness course will help your company comply with ISO 27001:2022 by educating your employees with the latest ISO 27001:2022 requirements. Your employees will also learn about the latest cyber threats and how they can play a part in your organisation to combat those threats.

Course Agenda

Module 1: ISO 27001:2022 – introduction to ISO 27001, what is an Information Security Management System (ISMS), ISO 27001 terms and definitions, why implement ISO 27001, risk management, ISO 27001 clauses, ISO 27001 Annex A controls, key implementation milestones, key documents, certification audit.

Module 2: Cyber Threats - perpetrators, tactics, malware, ransomware, phishing, social engineering, human error.

Module 3: Combatting the Threats - passwords, ISMS, training, encryption, authentication, incident reporting, data classifications, physical security, remote working.

The Benefits of Cyber Security Awareness Training for Employees

- Comply with ISO 27001:2022 clause 7.3 and Annex A control 6.3.
- Give staff an understanding the requirements of ISO 27001:2022 and why it is important to your organisation.
- Make staff aware of the current cyber threats.
- Equip staff with the tools they need to identify and report cyber incidents and data breaches.
- Improve communication and awareness.

Key Features

- Our eLearning platform allows staff to learn at their own pace without the time and expense of travelling to a training venue.
- Short 75-minute duration.
- Split into 3 modules that can fit around a busy schedule.
- Narration by an experienced consultant.
