DSP Toolkit Independent Assessment Audit Service Description

The Romano Security Consulting DSP Toolkit Independent Assessment Audit service helps organisations gain or maintain compliance with the DSP Toolkit by completing the mandatory independent audit against the required scope, reporting on findings, providing recommendations for improvement, and submitting the required external audit report.

DSP Toolkit Independent Assessment Audit Service

The DSP Toolkit is an online self-assessment tool that enables organisations to measure and publish their performance and compliance against the National Data Guardian's ten data security standards.

Organisations that have access to NHS patient data and systems including NHS Trusts, primary care and social care providers and NHS third party suppliers must complete the DSP Toolkit to provide assurance that they are practising good data security and that sensitive personal information is handled correctly.

It is now a mandatory requirement for the following NHS organisations to complete an annual independent audit assessment as part of their DSP Toolkit submission:

- NHS Trusts (Acute, Foundation, Ambulance and Mental Health)
- Integrated Care Boards
- Commissioning Support Units
- DHSC Arm's Length Bodies
- IT Suppliers

Romano Security Consulting have the required expertise and experience to conduct an audit of the mandatory scope as set out in the DSPT Independent Assessment Guide, provide you with a comprehensive audit report, recommendations for improvement and submit an independent assessment on your behalf.

Our DSP Toolkit Independent Assurance Audit service helps organisations gain or maintain compliance by completing the required independent audit and assessing your organisation's current internal control environment and current level of compliance against the DSP Toolkit category 1 requirements mandatory audit scope, reporting on the findings, providing recommendations for improvements, and submitting the required external audit report.

© Romano Security Consulting Ltd

The DSP Toolkit Independent Audit service consist of the following:

- pre assessment review of the previous toolkit submission,
- an audit of the mandatory audit scope against the current DSP toolkit category 1 requirements,
- production of the required audit report, including findings and recommendations for improvements and a risk and confidence evaluation,
- post audit review meeting,
- completion of the online DSP toolkit audit report submission,
- follow up corrective action meetings.
