Romano Security Consulting CSA STAR Consultancy Service Description

Romano Security Consulting delivers CSA STAR consultancy services to help organisations achieve compliance with the Cloud Controls Matrix (CCM) requirements. We provide support and guidance throughout the CSA STAR certification process.

Romano Security Consulting CSA STAR Consultancy Services

Romano Security Consulting currently offer the following CSA STAR (Cloud Security Alliance) consultancy services:

End To End CSA STAR Project Consultancy Support

Advice, guidance and support through the CSA STAR compliance and certification process and implementation for cloud businesses of all shapes, sectors and sizes.

CSA STAR Managed Service

Our manage service begins with a gap analysis against the CSA STAR requirements, development and management of an action plan, assistance with the production of or updates to the required policy, procedural and evidence documentation, advice and guidance on control implementation and evidence selection, internal audits, and support during the certification process.

Specific CSA STAR Milestones Consultancy Support

If you need require guidance and support through various stages of a CSA STAR implementation project e.g. staff training, documentation, policy and procedure creation, business continuity and incident planning, project management etc.

CSA STAR Gap Analysis

A gap analysis measures your current level of compliance against the current CSA Star requirements, provides you with a detailed report and enables the development and management of an action plan.

CSA STAR Internal Audit

If you require some assurance prior to your CSA STAR certification then we can conduct an internal audit if don’t have the resources in house to double check

© Romano Security Consulting Ltd

you have all of the requirements implemented and the required evidence in place.
