

G-Cloud 15 Pricing

Quod Orbis CCM Pricing

The Quod Orbis CCM platform is offered on an annual subscription service. We offer a single, inclusive price that covers everything needed from day one.

This includes full onboarding for unlimited data sources, users and dashboards, ensuring seamless integration and customisation. It also encompasses ongoing platform costs, maintenance of data sources and regular updates to dashboards, ensuring they remain relevant and effective.

In addition, the service includes regular sessions with our controls experts and access to technical support, ensuring continuous guidance and assistance as required.

With this single-price model you can have full confidence that costs will remain fixed throughout the term of the agreement.

Cost per year	Number of Assets in Scope		
No. Controls	<5k	<30k	<70k
0-50	£75k	£100k	£130k
51-100	£100k	£115k	£150k
101-200	£150k	£170k	£210k
