Forrit Technology Limited – Pricing Document

Framework Reference: RM1557.15

Forrit Project Pricing Models

Depending on the solution required for a project, a combination of Forrit Resources, a Forrit One platform subscription, and consumption of Azure services will be required.

- Forrit Resources – costs for project roles will be based on the SFIA skills matrix and the relevant day rate from the SFIA Rate Card, which can be seen below.
- Our service solution involves the use of the Forrit One platform. The cost of the platform for a mid-sized website could be as low as **£1,000 per month** but this varies depending on the scale of deployment. The relevant pricing for the Forrit One platform will be scoped and quoted as part of any request for services.
- The Forrit One platform requires an active Microsoft Azure subscription. Forrit One can be installed and operated on a customer's own Azure subscription or Forrit can provide an Azure subscription at an additional cost. Azure consumption costs will vary for each customer based upon website traffic, the number of datacentres used and the volume and nature of content stored and published.

Skills for the Information Age (SFIA) definitions & Rate Card

Standard Rate Card

	Strategy and architecture	Change and transformation	Development and implementation	Delivery and operation	People and skills	Relationships and engagement
1. Follow	N/A	N/A	£490	£490	£490	£490
