

Lifebit Trusted Research Environment™

G-Cloud 15

Overview of Different Lifebit Tiers

Start+

Small teams, bioinformatic labs, non-profits **includes:**

USAGE

- 5 Workspace
- Unlimited users
- Unlimited data
- Helpdesk

TrustOps – Essentials

- Federation to your data and compute environment
- Workspace Management

Trusted Data Lakehouse – Essentials

- Object Data Connect & Mngt

Trusted Data Sciences & Analytics – Essentials

- Workflows Mngt & Deployment: Nextflow
- Spark Notebooks
- Jupyter & R-Studio
- File Browser

GBP 75,000 p.a.

Launch

Mid-size orgs needing more support. **Includes Start, plus:**

USAGE

- 10 Workspaces
- Helpdesk

TrustOps – Essentials +

- Airlock
- Cost Management & Limits – Compute

Trusted Data Lakehouse Essentials +

- DB Connect & Mngt

Trusted Data Factory – Essentials

- Source Data ETLs
- OMICs Data ETLs

Trusted Data Sciences & Analytics – Essentials +

- Cohort Browser
- Bash Scripts
- Containerized Apps
- VS-Code

GBP 295,000 p.a.

Scale

Growing life science orgs, gov clients. **Includes Launch, plus:**

USAGE

- 25 Workspaces
- Helpdesk & Concierge Support

TrustOps – Advanced

- Firewall Setup & Management
- Organisation Management
- Workspace Cost Management & Limits – Storage

Trusted Data Lakehouse – Advanced

- Federated Data Connect & Mngt
- Bulk Lakehouse Actions
- Enterprise Data Catalog

Trusted Data Factory Advanced

- OMOP Data ETLs

Trusted Data Science & Analytics – Advanced

- R-Studio Pro/POSIT
- Looker-BI
- Data Catalog Browser
- Lifebit Gold Standard Workflows

GBP 595,000 p.a.

Enterprise

Pharma, national programs. **Includes Scale, plus:**

USAGE

- Unlimited Workspaces
- Helpdesk & Concierge Support – Advanced

TrustOps – Enterprise

- Automated Airlock
- Organisation Cost Management & Limits

Trusted Data Lakehouse – Enterprise

- API Data Connect & Mngt
- Enterprise DataHub

Trusted Data Factory – Enterprise

- AI-automated OMOP Mapping/Harmonization
- AI-automated Custom Data Model Mapping/Harmonization
- AI-automated Source Data Cleaning & Harmonization

Trusted Data Science & Analytics – Enterprise

- DataHub Browser

GBP 995,000 p.a.

TargetID – Associations

- Best-in-class Common & Rare Variant Workflows
- Best-in-class Population Genomics Workflows
- Best-in-class Genetic Correlation & Heritability Workflow

TargetID – Identification

- Best-in-class Causal Discovery & Target Identification Workflows

Additional federated data only site: GBP 75,000 p.a.

Additional federated data & compute site: GBP 150,000 p.a.
