Option A: Buyer-Procured SaaS Service

1. Pricing Overview

This pricing applies to the DBS Registered Body (RB) Services offered under Lot 2b (Software as a Service) of the G-Cloud 15 Framework.

Under this service, the Buyer is an existing DBS Registered Body and procures access to the Supplier's SaaS platform and associated support services to enable the Buyer to manage DBS applications directly with the Disclosure and Barring Service (DBS).

2. Pricing Model

The service is offered using a catalogue pricing model with a single unit price.

Pricing is provided on a per-application basis and is all-inclusive for Supplier-provided services within the scope of this Registered Body support service. The Buyer is responsible for Supplier charges under the Call-Off Contract.

3. Framework Price

Catalogue Unit Price:

The Buyer is responsible for payment of DBS statutory fees directly to the Disclosure and Barring Service at the rates set by DBS. These fees are outside the scope of the Framework Price, are not paid to the Supplier, and are subject to statutory exemption (for example, eligible volunteer applications) and change.

7. Framework Pricing Statement

Pricing is provided as a maximum Framework Price, in line with the G-Cloud Framework. Buyers may agree lower prices at call-off where permitted by the Framework.

8. VAT

All prices are stated exclusive of VAT. VAT will be charged at the prevailing rate where applicable.
