

Stu3 Service Definition: G-Cloud

Student System Solutions for HEIs

Stu3 provides Higher Education Institutions with independent expert services for every aspect of student information systems (SIS) and their integrations. We enable adoption and consumption of best-in-class cloud-based student records systems, focused on customer success and optimal return on investments.

*"The **quality of consultancy** from Stu3 was excellent. The University has worked with Stu3 on many projects, and on this project in particular they demonstrated **superior knowledge and honest advice** on the most practical and realistic way forward."*

University of Oxford

Our Services

We provide a range of services to streamline and improve user experience within your Student Information Systems (SIS).

We have service offerings in each and every functional area covered by SIS.

Our offerings help customers to implement SIS in the cloud, integrate with external systems and migrate data from legacy data stores.

We aid your expansion and optimization of SIS by embedding cloud-native operational models and standardized processes.

We help you keep SIS updated and secure through SIS refresh cycles.

Our People

Our people are the best in the business.

Our Customers

Our team has completed hundreds of successful SITS projects in more than 60 HE institutions.
For a full list of our customers visit stu3.co.uk/clients

*"Stu3's **technical understanding** of SITS and data is very, very high. They provided a large amount of input, not only in relation to getting SITS integrations up and running, **but how we should do it.**"*

St Mary's University

*"Based on previous year's figures, the solution would **release over 2,500 staff hours.**"*
