Indicative Pricing for Bespoke Solutions:

Type and level of customisation required (Up to 30 minutes in seating time)	Indicative Pricing
Rapid build development for up to 20 minutes learning module. This level of design means that the content of the course will be based exactly on the wording provided in PowerPoint. Skillcast will add images that support the text and will build an assessment with up to 20 questions if required.	10,000
Bespoke development follows our standard e-learning. It is appropriate where the client provides content and wants Skillcast to storyboard it into an engaging learning experience for up to 20 minutes learning and applying their branding. The solution will be responsive and accessible. The client will have three rounds of reviews: Alpha, Beta, Gold before the final sign off.	£15,600
Built on from bespoke development above with further innovative approaches such as themes. Skillcast shall create and shape the storyboard for the course based entirely on the content provided by the client.	£19,500
Enhanced Bespoke – pricing will depend on complexity of treatment and what intelligent learning assets we need to include such as animated videos, adaptive learning, gamification etc.	Upon consultation

All pricing provided are exclusive of VAT
