Compliance Essentials

Skillcast Compliance Essentials is the UK's best-selling compliance e-learning library. It contains over 120 e-learning courses covering key compliance issues facing UK companies, such as AML, anti-bribery, cybersecurity, data protection, preventing harassment, and health and safety.

The courses feature real-life scenarios to prepare employees for fulfilling their compliance responsibilities and acting with integrity. They are available in several styles, ranging from in-depth to refresher and express, to suit the needs of various employee groups.

All the courses in the Compliance Essentials Library are ready to roll out 'as-is' or can be customised easily to your business needs. Several of these courses are also accredited for CPD.

Essentials E-learning Courses with LMS

"I believe Skillcast offers a great product to the market. It offers a long list of modules in its libraries, including some very important topics, at an amazing value."

FCA Compliance

Skillcast is the leading supplier of compliance e-learning to firms regulated by the Financial Conduct Authority (FCA).

Our FCA Compliance Library comprises over 80 courses covering high-level standards, business standards for all sectors, and thematic topics such as conduct risk, the Consumer Duty and fair treatment of vulnerable customers. They also provide comprehensive coverage of the SM&CR regime and Conduct Rules.

The content in these courses closely follows the FCA Handbook and is reviewed regularly by expert trainers and ex-regulators. The courses feature practice exercises, thorough assessments and affirmations to ensure that your staff are aware of and competent in applying the relevant rules.

"We've been using Skillcast for approx. 1.5 years and have been very happy with the service received and the courses offered. The customer service from the support team is excellent - they always respond quickly and are very helpful. The courses offered cover a broad range and the FCA courses were particularly useful to our business."

Global Compliance

The Global Compliance Library covers key compliance topics applicable to numerous jurisdictions worldwide. These courses adopt a global perspective on best practices, focusing on principles rather than specific local regulations, and incorporate news articles and realistic scenarios that illustrate best practices for employees in any location.

These e-learning courses are available in English and nine other languages: Brazilian Portuguese, Chinese (Simplified), Dutch, French, German, Italian, Japanese, Polish, and Spanish. Clients typically customise these courses to align with their global policies and risks and retranslate them into these and other languages.

"Skillcast has truly transformed our approach to compliance training and tracking. Not only does it seamlessly manage our global company's compliance requirements, but it also enhances employee engagement through its user-friendly interface and interactive content. What sets Skillcast apart is not just the platform itself, but also its exceptional customer service team. It's been instrumental in streamlining our compliance processes and fostering a culture of proactive risk management, growth and development."

Insurance Compliance

Skillcast is the leading supplier of compliance e-learning to the UK financial services sector, including insurance firms.

Our Insurance Compliance Library comprises over 60 courses covering principles of insurance, ICOBS and conduct topics, including the Customer Duty, fair treatment of vulnerable customers and the SM&CR.

These courses closely follow the FCA Handbook and guidance and are reviewed regularly by trainers and ex-regulators. In-course exercises and assessments ensure that your staff are aware of and competent in applying the relevant rules.

"Skillcast is a great platform to use for compliance e-learning. The staff found the courses informative and engaging. There is a wide range of compliance-related topics in the libraries. The LMS is easy to use, and provides reports to track staff progress, which is a helpful feature."

EU Compliance Library

The EU Compliance Library is built to simplify staff compliance training across multiple languages in the EU. It contains over 35 in-depth and microlearning courses that cover key compliance topics for all industry sectors, including anti-money laundering, competition law, cybersecurity, data protection/GDPR, market abuse, and responsible use of AI.

All the courses in this library are ready to roll out 'as-is', but they are also easy to customise for your company. You can customise them yourself or retain Skillcast's expert e-learning developers to do it for you.

All courses in this library are available in French, German, Dutch, and English. Employees who prefer a different language from the one the company sets can switch with a single click. The text, exercises, assessments, videos, and subtitles in the courses switch automatically to the chosen language.

"We've had an excellent experience using Skillcast. The courses are well-structured and comprehensive, with a good balance of theory and practical examples."

Compliance Bites

The Compliance Bites Library comprises over 150 microlearning modules, designed to enhance your compliance e-learning. They cover a wide range of regulatory topics and compliance issues and require no customisation. Each 'bite' provides employees with concise, impactful compliance insights. Their video format and compelling storylines make training more engaging and effective.

Compliance Bites can be used as periodic reminders after in-depth training on a topic to improve knowledge retention. They can be used for just-in-time training and nudge learning in combination with 'Question of the Day' campaigns.

"It's been a very positive experience for me. The videos make training easier to follow, it's much quicker to learn things, and overall it takes up less of my time. So well done on this new format - it gets a thumbs up from me!"
