ADDITIONAL SERVICES

PROFESSIONAL SERVICES FEES

A one-off Project Mobilisation fee is applied to any integrated option which will include the design, implementation and testing of the Premonition aspects of the required integration solution, including provision of suitable testing environments and all other testing and UAT support.

Similarly there will be extra charges for any other out-of-scope requirements, for example, mobilisation of a Supply Chain member API integration.

Professional Services fees will depend on the nature and complexity of the requirements and will be charged based on our standard professional services rate. Fees can be estimated and fixed in advance if preferred.
