G-Cloud Service Name

Knowledge Hub Digital Networks

Service Overview

Easy-to-use collaboration solution, helping you effectively communicate, collaborate, and connect with stakeholders, partners and employees. Manage your own branded channel, members, communities and microsites. Hosted on the Knowledge Hub platform, meaning no infrastructure burden. Build a flexible collaboration space, blending accessible open groups and closed intranet-style workspaces.

Please see Knowledge Hub Digital Networks service definition for more information.

Pricing

Guideline Knowledge Hub Digital Network pricing is as follows. Any additional activities such as data on-boarding, off-boarding, or establishment of integration with existing directory services, systems or networks will be in line with resources required for that activity. The individual day rate for each resource type is included in the SFIA rate card. However, our standard fees are designed to be fully inclusive and it is therefore unusual to require additional services.

Packages can be tailored according to requirements with volume discounts available. Below are five sample packages starting from a minimum of £3,000 per annum.

Package 1

This package is designed for organisations requiring small branded, collaborative networks.
