G-Cloud Service Name

Open Place Directory

Service Overview

Open Place Directory enables the crowdsourcing and quality assurance of local services data, which can then be fed into frontline applications seeking to deliver support services for social prescribing and other initiatives. Service Providers can easily maintain and tag their pre-assured data, and volunteers can easily submit service data for assurance and publication.

The database structure and open APIs are based on the Open Referral UK data schema, which supports a consistent data structure across the UK, providing interoperability of applications. Please see the Open Place Directory service definition for more information.

Pricing

Open Place Directory pricing is as follows. Any additional activities such as data on-boarding, off-boarding, or other programme support or consultancy activities will be in line with resources required for that activity. The individual day rate for each resource type is included in the SFIA rate card.

Service	Price (per annum)
Annual OPD Subscription, including Application Support & Web-services (API's) Support - Per Tier 1 Local Authority	£24,000
Annual OPD Subscription, including Application Support & Web-services (API's) Support - Per Tier 2 Local Authority	£18,000
Add-Ons	Price (one off)
Implementation (Including Set Up, Configuration, Administration & Assurance Training and Data Migration scoping) - per Authority	£6,000
Optional Service Finder front-end – scoping, design and branding, development if required and deployment. Typically, 2-6 weeks activity, dependent on client's choice to reuse standard UX or extend the design.	Typically, between £7,500 to £22,500 (dependent on requirements)

Notes

Subscription to be paid in full, annually and in advance. Implementation and optional Service Finder front-end fees to be paid at the same time as 1st year subscription.
