G-Cloud Service Name

Digital Place (Enterprise)

Service Overview

Your integrated platform for making and re-using websites and digital services. Re-use cubes co-developed with Councils, create new services using Placecube’s low-code UX, form, data and process building tools, or use the full-code development capabilities of the embedded Liferay DXP. Cloud-based, open-source and fully scalable to accelerate your digital transformation.

Please see Digital Place Enterprise service definition for more information.

Pricing

Digital Place Enterprise pricing is as follows. Any additional activities such as data on-boarding, off-boarding, or establishment of integration with existing directory services, systems or networks will be in line with resources required for that activity. The individual day rate for each resource type is included in the SFIA rate card.
