G-Cloud Service Name

Digital Place

Service Overview

Your publishing platform for making websites, microsites and intranets with simple forms and directories. Re-use public sector co-developed user experience designs, page templates, fragments and content types, create simple forms using Placecube's low-code Form Builder, and publish directories of local assets and services. Cloud-based, open-source and fully scalable.

Please see Digital Place for Web Publishing service definition for more information.

Pricing

Digital Place for Web Publishing pricing is as follows. Any additional activities such as data on-boarding, off-boarding, or automated migration discovery, planning and implementation will be in line with resources required for that activity. The individual day rate for each resource type is included in the SFIA rate card.

*Price range is based upon rates detailed in our SFIA Rate Card. We offer discounts for days purchased in advance by customers who have a Digital Place product subscription. Our discounted single blended day rate starts at £750 per day, reducing to £700 per day for pre-purchased bundles of over 100 days and £600 per day for bundles over 500 days.

Placecube is committed to transparent and fair pricing. Clients will never pay more than £120,000 per annum for our SaaS services, when combining two or more of the following products:

- Digital Place
- Digital Place for Customer Services
- Digital Place for Building Digital Services
- Digital Place for Formal Enquiries
- Digital Place for Blue Badges
- Digital Place for Commerce

Buyers who want to combine three or more Digital Place services should consider the Digital Place for Local Public Services subscription as a more cost-effective option.

District Councils receive a discount against the foundation subscription for Digital Place. The reduced annual subscription price is £36,000 per annum.

All prices are listed exclusive of VAT.
