Pricing for Ortus-iHealth RMP and Virtual Ward Management Platform

The Ortus-iHealth platform is delivered as Software-as-a-Service via a fixed annual subscription platform license. The annual platform license is calculated based on the parameters of operational usage across secondary care organisations, i.e. that of the pathway, department, hospital, trust or ICB according to the following guidelines:

Tertiary and Specialist Hospitals	Entry Price	Additions (Pathways or Departments)	Notes
Single Pathway	28,950	19,397	Where tertiary and specialist hospitals accept referrals from and engage with DGH hospitals on shared pathways, enquire for specific pricing.
Department	44,750	29,983	
Hospital Wide	237,500*	Not Applicable	
District General Hospitals			
Single Pathway	17,995	1,500	
Department	29,995	19,995	
Hospital Wide	Price on Application		
Trust	Price on Application		Subject to number of hospitals etc.
ICB	Price on Application		Subject to number of trusts etc.

- Entry price subject to hospital departmental coverage. All prices in GB Pounds and exclude VAT.

Notes:

1. There is a minimum order size depending on the type of service (pathway, department, hospital, trust, or ICS), please contact us for more information.
2. Usage is unlimited and unrestricted for the service level purchased, this includes access for all conditions or patients associated with the service irrespective of the form of access, i.e. browser or app access.
3. Our delivery and pricing include implementation, training, access to standard service promotion and launch templates, ongoing account management and access to all the functionality and capability available on the platform during the commissioned period.

4. The availability of functionality and capability is subject to change, such changes whether additions or removals of capabilities during the contract do not have an impact on the platform subscription. For the avoidance of doubt there are no additional charges payable in the event of additional functionality, or capabilities being added, nor are there any refunds or discounts for deprecation of functionality no longer available to the service.
5. We support APIs and single sign on technology, depending on the specific requirements and size of contract we reserve the right to charge a nominal fee for their implementation and ongoing usage charge where a usage charge is levied by the third party. Any potential situation resulting in additional charges will be discussed with the customer for approval in advance. Contact us for further details.
6. Pricing is also available on demand for specific requirements for equipment, kits and logistics. Prices for those services are on request
