

Roadmapping Technology

G-Cloud 15 Framework

Pricing Document

Service Names: Nuclear Enterprise Innovation Management Software

Implementation and support for Innovation Management Solutions

Supplier: Roadmapping Technology Limited

Lots: 2b. Cloud Software (SaaS) and 3. Cloud Support (Specialist Consultancy)

Version: 1.0

Date: January 2026

1. Overview

Roadmapping Technology provides SaaS licensing, configuration, onboarding, training and consultancy services for the Accolade software platform. All pricing in this document represents standard, non-negotiable G-Cloud 15 pricing.

Accolade is delivered as a standard product with no code modifications. Its configuration layer enables tailored deployments aligned to each client's terminology, structure, and processes, supporting rapid adoption.

UK sovereign hosting (data classifications up to and including *OFFICIAL*) is included as standard.

Additional levels of security are available as required for data classification as up to and including OFFICIAL-SENSITIVE and Sensitive Nuclear Information (SNI).

2. Software Licensing Costs

Licensing is based on **named users**, billed annually in advance, with a **3-year minimum term** and a **minimum of 50 Full Users**. Concurrent licensing is not available. **Accolade Core is mandatory**.

A single production instance and one non-production instance are included. Standard support and maintenance are provided.

Additional security options are available for **OFFICIAL-SENSITIVE** and **Sensitive Nuclear Information (SNI)** at an additional cost depending on requirements.

A single annual major version upgrade is provided as part of the SaaS service. Excludes any customisations and interfaces to third-party systems.

Accolade License Type	Monthly Cost	Annual Cost
Accolade Core	-	£50,000
Full User (each)	£108	£1296
Limited User (each)	£35	£420

Exclusions

Additional capabilities for Idea Management, Project Management and Technology Scouting are available as an optional part of the Accolade platform.

These extensions - Accolade Ideas, Accolade Projects, and Scout - are all available as optional extensions with separate pricing as detailed below:

Accolade Ideas

Accolade Ideas is an optional part of the Accolade platform, requiring Accolade Core as a basis.

Accolade Ideas licenses are available as an extension to the Accolade also based on a 3-year subscription term. Pricing is based on the number of Campaign Managers, Collaborators and Submission users. However, individual users do not need an Accolade license to use Accolade Ideas.

Accolade Ideas Pricing is based on the number of named users. Accolade Ideas users are priced from £20,000 per annum for a starting bundle comprised of: 10 Idea Campaign Managers, 100 Idea Collaborators and 3,000 Idea Submission users.

Accolade Projects

Accolade Projects is an optional part of the Accolade platform.

Accolade Projects licenses are available as an extension to Accolade also based on a 3-year subscription term. However, individual users do not need an Accolade license to use Projects.

Accolade Projects Pricing is based on the number of named users. Accolade Projects users are priced at £540 per user per annum, with a minimum of 25.

Scout

Scout is an optional part of the Accolade platform.

Scout licenses are available as an extension to Accolade also based on a 3-year subscription term. However, individual users do not all need an Accolade license, to use Scout.

Scout Pricing is based on the number of named users. Scout users are priced at £5,000 per user per annum.

3. Onboarding

Time depending on the number and complexity of required business processes, typically including

- Business use case evaluation including definition of target business outcomes
- Interfacing to external data sources and overall security requirements
- Configuring solution according to agreed specifications and data migration as required
- Deployment, validation, acceptance and go-live
- Creation of any specific documentation and performing Training (detailed below)

Costs are determined from an estimate of time required as agreed with the customer and based on Standard Consultancy Rates & Terms as below.

4. Training

Training is carried out usually in classes of up to 12 users and is chargeable based on a daily rate of £1400 to £1540 as shown in the rate card below. Standard consultancy terms apply.

5. Consultancy Rates and Services

Our consultants are experienced in the software and support services and their applications to support the required business use cases for each implementation project.

They have also received training in the proven methodology that we use to ensure a consistent and efficient approach.

Data governance is an integral part of every assignment.
