vCISO & Cybersecurity Advisory

What is a vCISO?

vCISO (Virtual Chief Information Security Officer) provides on-demand, highly qualified, and strategic information security leadership tailored to an organization's specific needs.

Expertise?

vCISO supports an organization in policy building, roadmap design, security governance, regulatory compliance and business alignment.

Value provided by vCISO?

Cost-effective alternative to hiring a full-time CISO and Compliance Officer.

Ideal for?

Growing companies or regulated organizations seeking qualified guidance without burning a hole in the pockets.

Policy and S.O.P. Development

- Tailored IT and Information Security related policies based on industry standards.
- Alignment with business mission and vision, as well as regulatory requirements.
- Examples:
 - ☐ IT Policy
 - ☐ Information Security Policy
 - ☐ Disaster Recovery Policy
 - ☐ Backup Policy
 - ☐ Acceptable Usage Policy
 - ☐ Incident Response Plan

Compliance Readiness

- Pre-audit assessment vs GDPR, ISO 27001, HIPAA, NIST, PCI-DSS etc.
- Remediation Advisory, Planning & Roadmap, Mock Audits.
- Long-term Compliance Planning.
- Continuous Compliance Monitoring Implementation

Risk Management and Governance

- Develop risk registers and assign ownership.
- Create heatmaps for risk visualization and prioritization.
- Set up committees for governance and risk oversight.
- Implement structured reporting to inform stakeholders regularly.

A background image showing a close-up of two hands shaking in a firm grip, symbolizing a business deal or agreement. The image is dark and moody, with a large, solid red diagonal shape overlaying the right side. The text 'Thank you' is centered in a white box on the left side.

Thank you
