The Evolution Exchange: NHS

Introducing our NHS Sector - leading content offering: 'Evolution Exchange'. It showcases digital and technology leaders across the NHS and offers a platform to discuss and share their views on some of the leading-edge work they have been delivering across their trusts, organisations and ICSs.

Trust specific - so you can share the specific opportunities, projects and challenges you are facing

Increased digital engagement - you receive the recording to share across your trust, enabling all staff to understand the digital goals

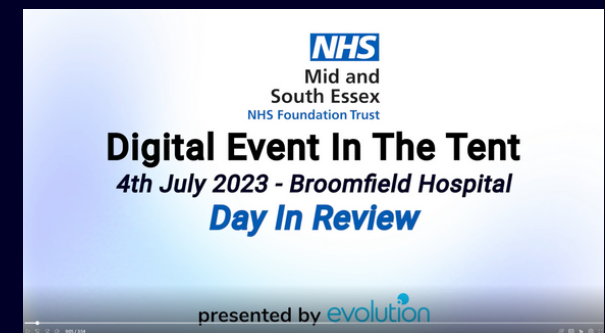

Sharing best practice - celebrate the good work happening within your organisation and inspire others

Rise above the competition - in a competitive landscape for digital professionals, our content-driven strategy empowers you to distinguish yourself from the competition.

Outcomes

Our Managed Service Solution

Introducing 'Outcomes', Evolution NHS's highly configurable managed service solution for digital projects.

It is the go-to solution for NHS organisations looking for cost effective individually scoped digital transformation solutions where Evolution take the responsibility for the successful delivery.

Evolution's expertise is with the Implementation and the Optimisation & Realisation of Benefits phases of digital projects.

Our milestone-based agreement aligns our support and services with your project requirements and provides a payment model which can only be executed upon successful completion of check points throughout a project.

Outcomes: Wrapped Service Process

Data and Business Intelligence

Data and Business Intelligence

An Outcomes Service Model

We enable organisations to harness the value of their data through deployment of cloud and hybrid-cloud data infrastructure, IG, processing, metadata management, data mining, artificial intelligence, data visualisation and business intelligence solutions. We develop and implement enterprise-wide data strategy and architectures to support business and operations strategies.

Data and Business Intelligence Features

Enterprise-level Data and business intelligence strategy development
Programme and project investment cases and options appraisals
Cross-sector experience including Health, Social and Integrated Care
Rapid problem-solving and ongoing guidance and assurance service options
Implementation roadmaps guidance to support cloud migration
Expert advice on UK interoperability, information and data standards
Independent assurance of BI, machine learning and AI solutions
Benchmarking IG and BI maturity, capability and readiness
Robust methodology based on industry standards, best practice and emerging practices
Holistic capability covering strategy execution, capability development and data integration

Data and Business Intelligence Benefits

- ➡ Identifies opportunities to harness Cloud infrastructure and services
- ➡ Aligns data and cloud architecture with organisational BI needs
- ➡ Independent appraisal and benchmarking of BI maturity capability and readiness
- ➡ Clarity of organisational changes required to deploy cloud-based BI platform
- ➡ Scales infrastructure and application investment to information strategy and requirements
- ➡ Leverages the potential of analytical technologies including AI, Machine Learning
- ➡ Justify investments in cloud based-BI solutions using proven models
- ➡ Builds evidence-based strategy to build a future proof BI platform
