

Faster progress through technology

CTO as a Service

Clarity, direction, and real-world impact

Who we are

We partner with ambitious leaders to cut through digital complexity and accelerate the UK's security, resilience and prosperity. Our teams design and integrate solutions that fit seamlessly into existing systems, turning strategy into measurable progress.

We blend strategy, technology, and change expertise to tackle complex challenges. Our specialists deliver actionable plans, robust architectures, and sustainable transformation across digital strategy, AI, and data governance.

Defence, government, and industry leaders trust us to deliver results that matter.

Our three principles

These principles guide what we do and how we work:

Force for Good

We empower our team, clients, and society by investing in people, supporting positive change, and championing national resilience and prosperity.

Deliver Excellence

We set the highest standards in everything we do. We think long-term, focus on what matters, and enable our team to deliver outstanding results for ambitious clients.

Empathy & Integrity

We listen to understand, challenge constructively, and always act with honesty and care, owning our decisions and doing what's right, even when it's hard.

CTO as a Service

We act as a trusted CTO, providing strategic technology direction, architecture oversight, governance uplift, and roadmap definition.

We align technology decisions to measurable business outcomes, accelerate delivery maturity, and ensure platforms, teams, and data foundations are ready for secure scaling, innovation, and responsible AI adoption.

Features

- Strategic technology leadership aligned to organisational priorities.
- Strategic guidance aligning tech decisions to business outcomes.
- Architecture oversight ensuring scalable, modern platforms.
- Governance frameworks improving technology decision-making.

Benefits

- Clear technology vision guiding organisational priorities.
- Stronger leadership accelerating transformation progress.
- Reduced risk through expert oversight and governance.
- Better technology investment decisions.
