

Faster progress through technology

# Cloud & AI Governance

Clarity, direction, and real-world impact

# Who we are

We partner with ambitious leaders to cut through digital complexity and accelerate the UK's security, resilience and prosperity. Our teams design and integrate solutions that fit seamlessly into existing systems, turning strategy into measurable progress.

We blend strategy, technology, and change expertise to tackle complex challenges. Our specialists deliver actionable plans, robust architectures, and sustainable transformation across digital strategy, AI, and data governance.

Defence, government, and industry leaders trust us to deliver results that matter.

# Our three principles

These principles guide what we do and how we work:

## Force for Good

We empower our team, clients, and society by investing in people, supporting positive change, and championing national resilience and prosperity.

## Deliver Excellence

We set the highest standards in everything we do. We think long-term, focus on what matters, and enable our team to deliver outstanding results for ambitious clients.

## Empathy & Integrity

We listen to understand, challenge constructively, and always act with honesty and care, owning our decisions and doing what's right, even when it's hard.

# Cloud & AI Governance

We design and embed governance that supports delivery pace, assurance and enables smooth transition to business as usual.

This includes decision forums, standards, controls, security alignment, supplier management and cost transparency - giving you trust and assurance that your cloud & AI projects are under control.

## Features

- Governance design with decision rights, forums and escalation paths.
- Standards and guardrails for architecture, data and security.
- Lightweight assurance model aligned to public sector expectations.
- Financial governance for cost transparency and value tracking.

## Benefits

- Faster decisions through clear forums and accountabilities.
- Reduced risk with consistent standards and assurance controls.
- Improved security outcomes through aligned governance and oversight.
- Better value through cost transparency and prioritised investment.
