

Faster progress through technology

Data & AI Maturity Assessment

Clarity, direction, and real-world impact

Who we are

We partner with ambitious leaders to cut through digital complexity and accelerate the UK's security, resilience and prosperity. Our teams design and integrate solutions that fit seamlessly into existing systems, turning strategy into measurable progress.

We blend strategy, technology, and change expertise to tackle complex challenges. Our specialists deliver actionable plans, robust architectures, and sustainable transformation across digital strategy, AI, and data governance.

Defence, government, and industry leaders trust us to deliver results that matter.

Our three principles

These principles guide what we do and how we work:

Force for Good

We empower our team, clients, and society by investing in people, supporting positive change, and championing national resilience and prosperity.

Deliver Excellence

We set the highest standards in everything we do. We think long-term, focus on what matters, and enable our team to deliver outstanding results for ambitious clients.

Empathy & Integrity

We listen to understand, challenge constructively, and always act with honesty and care, owning our decisions and doing what's right, even when it's hard.

Data & AI Maturity Assessment

We assess data maturity across governance, quality, architecture, skills, and culture. You receive clear insight into risks, gaps, and quick wins, plus a prioritised roadmap.

We also evaluate your readiness for analytics, AI, and machine learning to ensure you can confidently progress toward advanced data capabilities.

Features

- Assessment across data quality, governance, architecture and operations.
- Review of data ownership, stewardship and decision rights.
- Evaluation of data platforms, pipelines and integration patterns.
- Data security, access and privacy controls reviewed end to end.

Benefits

- Clear understanding of data strengths, gaps and risks.
- Faster progress through prioritised, practical improvement actions.
- Improved trust through better quality, ownership and controls.
- Better access enabling teams to use data confidently.
