

Faster progress through technology

# Cloud & AI Delivery Oversight & Assurance

Clarity, direction, and real-world impact

# Who we are

We partner with ambitious leaders to cut through digital complexity and accelerate the UK's security, resilience and prosperity. Our teams design and integrate solutions that fit seamlessly into existing systems, turning strategy into measurable progress.

We blend strategy, technology, and change expertise to tackle complex challenges. Our specialists deliver actionable plans, robust architectures, and sustainable transformation across digital strategy, AI, and data governance.

Defence, government, and industry leaders trust us to deliver results that matter.

# Our three principles

These principles guide what we do and how we work:

## Force for Good

We empower our team, clients, and society by investing in people, supporting positive change, and championing national resilience and prosperity.

## Deliver Excellence

We set the highest standards in everything we do. We think long-term, focus on what matters, and enable our team to deliver outstanding results for ambitious clients.

## Empathy & Integrity

We listen to understand, challenge constructively, and always act with honesty and care, owning our decisions and doing what's right, even when it's hard.

# Cloud & AI Delivery Oversight & Assurance

We provide independent oversight across delivery, change and assurance. We strengthen programme controls, improve supplier coordination, and ensure adoption activity is planned alongside delivery.

We support governance with practical evidence for security and architecture assurance, and help transition outcomes into business as usual.

## Features

- Independent oversight across delivery, change, suppliers and assurance.
- Programme controls for plans, risks, dependencies and cadence.
- Architecture and security assurance support with clear evidence packs.
- Supplier performance management and interface coordination across workstreams.

## Benefits

- Improved delivery confidence through transparent, independent oversight and control.
- Reduced risk through early detection and mitigation of issues.
- Better supplier outcomes through accountability, clarity and escalation.
- Faster assurance approvals through stronger evidence and readiness.
