

Faster progress through technology

Cloud Operating Model & Organisational Design

Darter service definition

Clarity, direction, and real-world impact

Who we are

We partner with ambitious leaders to cut through digital complexity and accelerate the UK's security, resilience and prosperity. Our teams design and integrate solutions that fit seamlessly into existing systems, turning strategy into measurable progress.

We blend strategy, technology, and change expertise to tackle complex challenges. Our specialists deliver actionable plans, robust architectures, and sustainable transformation across digital strategy, AI, and data governance.

Defence, government, and industry leaders trust us to deliver results that matter.

Our three principles

These principles guide what we do and how we work:

Force for Good

We empower our team, clients, and society by investing in people, supporting positive change, and championing national resilience and prosperity.

Deliver Excellence

We set the highest standards in everything we do. We think long-term, focus on what matters, and enable our team to deliver outstanding results for ambitious clients.

Empathy & Integrity

We listen to understand, challenge constructively, and always act with honesty and care, owning our decisions and doing what's right, even when it's hard.

Cloud Operating Model and Organisational Design

We design practical operating models and architectures to give you the complete framework for implementation.

We map roles, responsibilities, decision rights, information flows and key processes, then assess skills and capacity to give you a practical model and transition plan that delivers a clear transformation.

Features

- Target operating model aligned to outcomes, constraints and controls.
- Organisation design covering roles, responsibilities and decision rights.
- Process mapping for delivery, service management and governance.
- Skills assessment across leadership, product, engineering and operations.

Benefits

- Clear ownership and accountability across teams and suppliers.
- Faster mobilisation that ensures clarity and first-time success
- Stronger delivery culture with practical, repeatable working patterns.
- Improved resilience through defined support and operational responsibilities.
