

Faster progress through technology

Data Programme Oversight and Quality Assurance

Clarity, direction, and real-world impact

Who we are

We partner with ambitious leaders to cut through digital complexity and accelerate the UK's security, resilience and prosperity. Our teams design and integrate solutions that fit seamlessly into existing systems, turning strategy into measurable progress.

We blend strategy, technology, and change expertise to tackle complex challenges. Our specialists deliver actionable plans, robust architectures, and sustainable transformation across digital strategy, AI, and data governance.

Defence, government, and industry leaders trust us to deliver results that matter.

Our three principles

These principles guide what we do and how we work:

Force for Good

We empower our team, clients, and society by investing in people, supporting positive change, and championing national resilience and prosperity.

Deliver Excellence

We set the highest standards in everything we do. We think long-term, focus on what matters, and enable our team to deliver outstanding results for ambitious clients.

Empathy & Integrity

We listen to understand, challenge constructively, and always act with honesty and care, owning our decisions and doing what's right, even when it's hard.

Data Programme Oversight and Quality Assurance

We provide independent oversight to improve delivery quality and reduce risk in data programmes.

We assure architecture, engineering, operations and supplier coordination, and provide clear reporting for governance, including reproducibility, monitoring and quality controls for AI & ML

Features

- Independent assurance across architecture, engineering and operational readiness.
- Programme controls for plan, risks, dependencies and delivery cadence.
- Data quality assurance covering pipelines, testing and validation approaches.
- Security and compliance checks embedded into delivery governance.

Benefits

- Higher quality outcomes through independent scrutiny and practical controls.
- Reduced programme risk through early issue detection and action.
- Improved supplier performance through clearer expectations and accountability.
- Faster approvals through stronger evidence for assurance and governance.
