

Faster progress through technology

Adoption, Change & Benefits Realisation

Clarity, direction, and real-world impact

Who we are

We partner with ambitious leaders to cut through digital complexity and accelerate the UK's security, resilience and prosperity. Our teams design and integrate solutions that fit seamlessly into existing systems, turning strategy into measurable progress.

We blend strategy, technology, and change expertise to tackle complex challenges. Our specialists deliver actionable plans, robust architectures, and sustainable transformation across digital strategy, AI, and data governance.

Defence, government, and industry leaders trust us to deliver results that matter.

Our three principles

These principles guide what we do and how we work:

Force for Good

We empower our team, clients, and society by investing in people, supporting positive change, and championing national resilience and prosperity.

Deliver Excellence

We set the highest standards in everything we do. We think long-term, focus on what matters, and enable our team to deliver outstanding results for ambitious clients.

Empathy & Integrity

We listen to understand, challenge constructively, and always act with honesty and care, owning our decisions and doing what's right, even when it's hard.

Adoption, Change & Benefits Realisation

We oversee and support adoption to ensure services are used and benefits are realised. We plan engagement, communications and training, and run targeted change interventions while tracking benefits, adoption and capability improvement.

You can be confident that your new services and capability are delivering maximum value.

Features

- Change strategy aligned to outcomes, users and service measures.
- Stakeholder mapping and engagement across users, leaders and unions.
- Clear narrative and communications plan that builds trust.
- Training and capability uplift tailored to roles and needs.

Benefits

- Higher adoption so investment delivers real operational value.
- Reduced resistance through clear messaging and visible leadership.
- Faster time to value through targeted training and support.
- Improved capability and confidence across teams and services.
