

About Jumping Rivers

Jumping Rivers is a:

- Full-Service RStudio Partner
- Authorised reseller and distributor of RStudio software

We typically offer up to 10% of the RStudio licence cost as a discount against Jumping Rivers services, including consultancy and training.

Example: RStudio Team Standard (~£25,000) provides approximately £2,500 available against services.

Supporting Our Clients: Problems & Solutions

Client Challenge	Jumping Rivers Solution
More than a standard deployment	RStudio Discovery
Licence only	RStudio Licence
IT team struggles to support Linux	RStudio Ad-Hoc Support
Uncertainty around installation quality	RStudio Health Check
No desire to manage the environment	RStudio Support & Maintenance
Third-party support team needs installation help	Managed RStudio Deployment

Managed Service for RStudio by Jumping Rivers

Installation – Managed RStudio Deployment (Phase 1 of 2)

Overview

A standard build of Linux servers in a cloud environment (AWS, GCP, or Azure), followed by

installation of RStudio products. This can include individual products or the full RStudio Team platform.

Timescales

- Standard: 7 days
- Enterprise: 10 days

Recommendation

RStudio Discovery is recommended prior to RStudio Team Enterprise deployments.

Estimated Price

- Standard / Team: \$10000

Installation – Bespoke RStudio Deployment

Overview

Complex Linux server builds in cloud environments (AWS, GCP, Azure), including integration with authentication systems and additional software. Recommended for RStudio Team Enterprise. High-availability configurations can be included for test, pre-production, and production environments.

Timescales

Defined following an RStudio Discovery to clarify requirements and delivery approach.

Price

- RStudio Team Enterprise: TBC following Discovery
