Service Definition | Lot 3 – Cloud Support Services

Cloud Readiness and Transformation Planning

Introduction to Stellarmann

Bespoke built, expert led, delivery driven

Stellarmann is a specialist technology and business transformation consultancy, supporting public and private sector organisations to deliver complex change with confidence.

We launched in 2020 to help clients access exceptional expertise while putting stronger accountability behind delivery, supported by clear governance in a rapidly evolving delivery landscape.

Since then, we've supported multi-million-pound programmes for major government departments and organisations, including HMRC and The Crown Estate, by building and leading high-performing outcome-focused teams matched to each engagement.

Our shared-risk commercial approach keeps delivery anchored to agreed outcomes and measurable progress, while our Engagement Delivery Management team provides hands-on oversight shaping robust Statements of Work, maintaining alignment to deliverables and acceptance criteria and reducing the operational burden on client-side leaders.

Cloud Readiness and Transformation Planning

Service Description

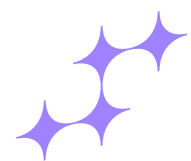

Cloud programmes fail when teams start migrating before the organisation is ready. Gaps in security, operating processes, skills and decision routes surface late, causing delays and unplanned risk.

Stellarmann provides cloud readiness assessment and transformation planning that is practical and decision ready. We review your current environment, governance, security controls, service management and delivery practices. We assess capability and identify gaps that block safe migration, including platform standards, access controls, monitoring, backup, incident response and supplier responsibilities.

We then define target outcomes and principles and propose an approach for the landing zone, platform patterns and migration method. We translate gaps into prioritised actions and a roadmap with sequencing, milestones and dependencies. Where choices are needed, we produce decision packs that make trade-offs explicit, including cost, risk and operational impact.

We also address how cloud services will be run after migration: support model, runbooks, monitoring, change controls and readiness checks. The outcome is a plan teams can execute with confidence; reduced risk, faster mobilisation and a clear path to sustainable cloud operations without unnecessary complexity.

We leave behind clear documentation, ownership and measures so the approach is sustained after the engagement.

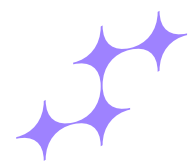

Features

- ✦ Readiness assessed across platforms, security and operations
- ✦ Gaps identified and actions prioritised to reduce risk
- ✦ Target outcomes and cloud adoption principles defined
- ✦ Practical landing zone and platform patterns recommended
- ✦ Security controls and access models aligned to policy
- ✦ Operating model and support needs planned post migration
- ✦ Migration waves and realistic sequencing defined
- ✦ Costs and benefits modelled to support trade-offs
- ✦ Roadmap produced with milestones, owners and dependencies
- ✦ Decision packs and handover artefacts prepared for mobilisation

Benefits

- ✦ A clear shared baseline of readiness
- ✦ Migration risk reduced through targeted gap closure
- ✦ Mobilisation accelerated with clear actions and ownership
- ✦ Security strengthened through aligned controls and standards
- ✦ Delivery made more predictable through structured sequencing
- ✦ Governance clarified to support timely decisions
- ✦ Roadmaps grounded in constraints and reality
- ✦ Cost visibility improved before committing spend
- ✦ Stakeholders aligned on decisions and priorities
- ✦ Operations planned so cloud services can be sustained

How this enables better outcomes

Cloud readiness planning sets the foundation for cloud migration, engineering and platform enablement. It links to governance, architecture, data and change services so transformation is sequenced, controlled and sustainable without unnecessary complexity.

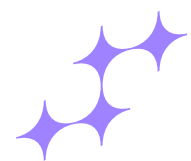

Common triggers

- ✦ Cloud migration is planned but readiness is unclear
- ✦ Security and operations gaps create delivery risk
- ✦ Leaders need a realistic prioritised roadmap
- ✦ Suppliers need clearer responsibilities and controls
- ✦ Cost and benefits visibility is weak

Service Constraints

Requires access to technical stakeholders, current architecture and operational processes. Engineering build and migration execution are out of scope unless separately commissioned.

Remote-first; onsite workshops by agreement.

Engaging Stellarmann

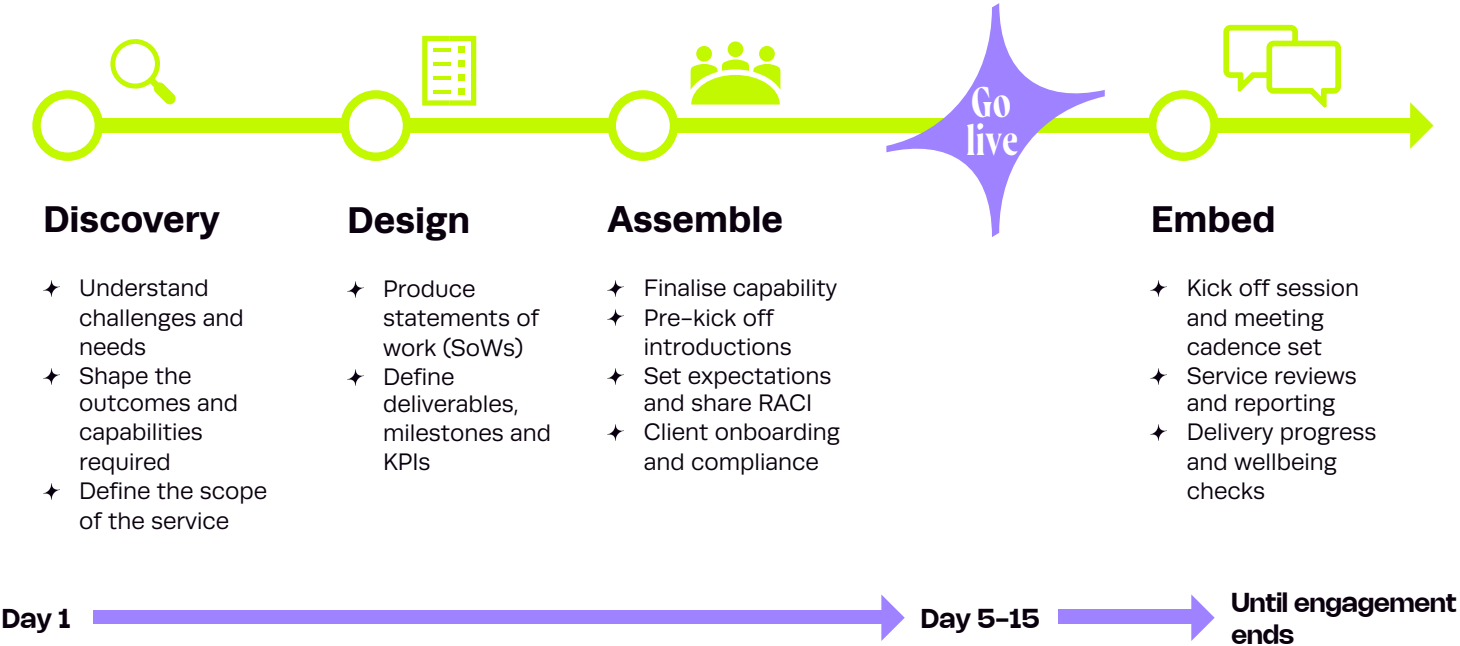

Ordering

Our services can be engaged inline with the G-Cloud 15 framework call off terms. Please get in touch initially by emailing gcloud@stellarmann.com

Service Delivery

We assign each of our clients a dedicated, free of charge engagement delivery manager who will be responsible for shaping the services, outcome and deliverables as well as for ensuring the quality-of-service delivery.

We will guide you through our comprehensive four stage service delivery process that takes our buyers from initial discovery to the end of the engagement.

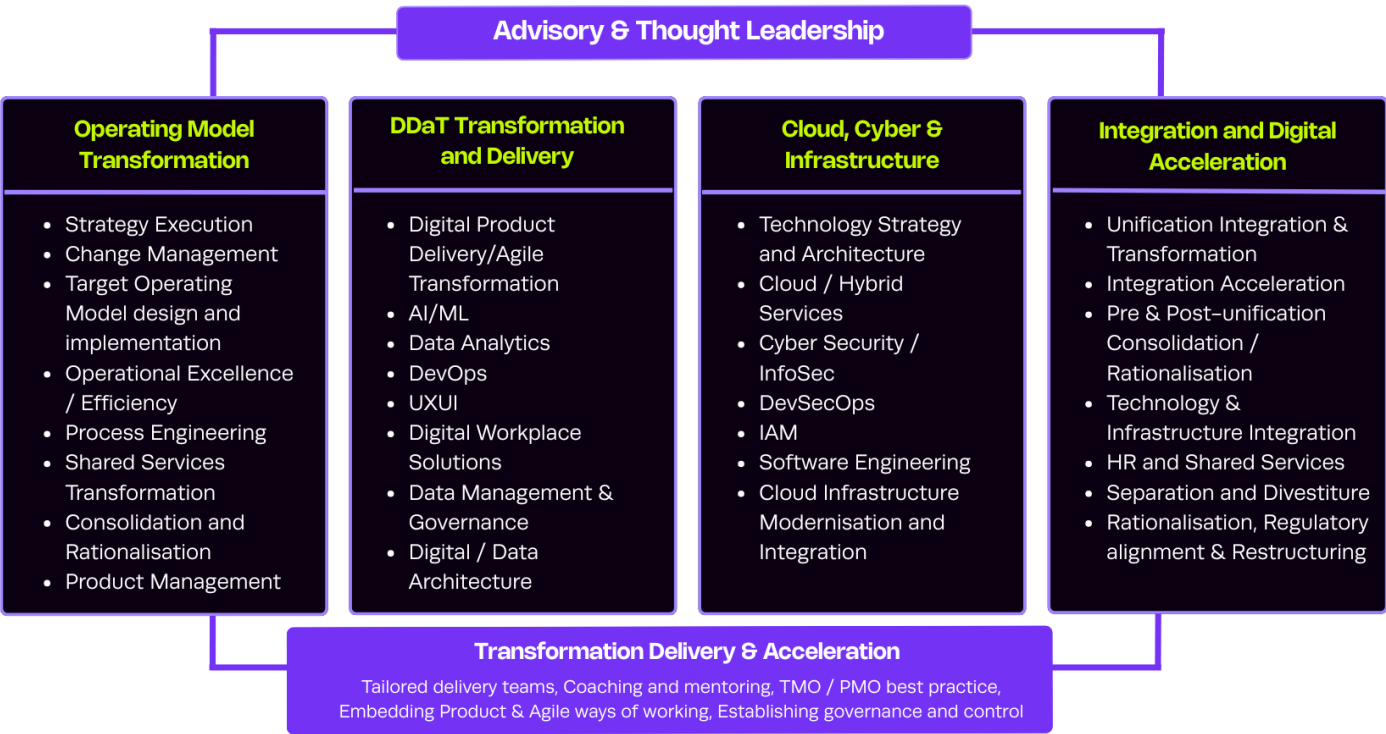

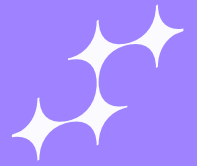

Stellarmann Services Overview

Our breadth of capability across technology and business transformation enables us to build long-term partnerships and support customers in achieving strategic outcomes, whether you need targeted expertise for a critical workstream or end-to-end delivery across a complex programme. We help organisations lean on exceptional expertise while putting stronger accountability behind delivery, supported by clear governance in a rapidly evolving delivery landscape.

Services are designed to accelerate progress while minimising unnecessary complexity: we mobilise quickly (often within 10–15 working days) embed as “one team” with client and supplier stakeholders and transfer knowledge so capability remains with your organisation. Every engagement involves a shared-risk commercial approach, anchored to agreed deliverables and acceptance criteria, supported by dedicated Engagement Delivery Management to provide delivery assurance, governance and clear reporting.

We do the hard yards of delivery alongside you. Bringing clarity, momentum and execution to every stage of the journey.
