Hybrid Cloud and Platform Enablement

Introduction to Stellarmann

Bespoke built, expert led, delivery driven

Stellarmann is a specialist technology and business transformation consultancy, supporting public and private sector organisations to deliver complex change with confidence.

We launched in 2020 to help clients access exceptional expertise while putting stronger accountability behind delivery, supported by clear governance in a rapidly evolving delivery landscape.

Since then, we've supported multi-million-pound programmes for major government departments and organisations, including HMRC and The Crown Estate, by building and leading high-performing outcome-focused teams matched to each engagement.

Our shared-risk commercial approach keeps delivery anchored to agreed outcomes and measurable progress, while our Engagement Delivery Management team provides hands-on oversight shaping robust Statements of Work, maintaining alignment to deliverables and acceptance criteria and reducing the operational burden on client-side leaders.

Hybrid Cloud and Platform Enablement

Service Description

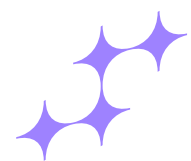

Hybrid environments are common, but they often evolve without consistent standards. Teams struggle with connectivity, identity, and operational ownership across on-prem and cloud. That slows delivery and increases security and reliability risk.

Stellarmann enables hybrid cloud platforms that teams can use safely and repeatedly. We start with an assessment of current platform components: network connectivity, routing, identity integration, security controls, provisioning methods and operational processes. We identify gaps that block consistent service delivery, such as unclear standards, manual provisioning or missing monitoring.

We then design and implement platform foundations: landing zones, connectivity patterns, identity and access integration and governance standards that are proportionate and practical. We codify platform patterns using infrastructure as code templates so teams can provision environments consistently. We set up monitoring and logging to improve visibility, and we define backup and recovery patterns to reduce operational risk.

We finish with runbooks, operating procedures and enablement workshops so teams can run and evolve the platform. The outcome is faster provisioning, clearer controls and a hybrid platform foundation that supports delivery at pace without unnecessary complexity.

We leave behind clear documentation, ownership and measures so the approach is sustained after the engagement.

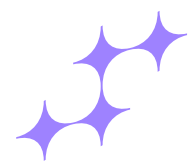

Features

- ✦ Current hybrid platform and delivery pain points assessed
- ✦ Landing zones and network patterns designed for hybrid delivery
- ✦ Supportable connectivity and routing patterns defined
- ✦ Identity and access integrated to simplify control
- ✦ Platform standards and governance established for teams
- ✦ Infrastructure-as-Code templates created for repeatability
- ✦ Monitoring and logging set up for platform visibility
- ✦ Backup and recovery patterns defined to reduce risk
- ✦ Runbooks and operating procedures produced for support
- ✦ Enablement sessions delivered and documentation handed over

Benefits

- ✦ Standards reduce variation across teams and suppliers
- ✦ Provisioning becomes faster and more repeatable
- ✦ Security improves through consistent identity and controls
- ✦ Ownership becomes clearer across platform and product teams
- ✦ Integration risk reduces through tested patterns
- ✦ Resilience improves through defined recovery approaches
- ✦ Visibility increases through monitoring and logging
- ✦ Toil reduces by removing manual provisioning steps
- ✦ Adoption is smoother with a usable platform foundation
- ✦ Teams operate and evolve the platform confidently

How this enables better outcomes

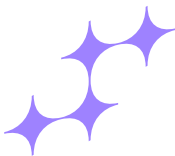

Hybrid platform enablement provides the foundation for cloud engineering, migration and digital delivery. It aligns with architecture, governance and security services to ensure environments are consistent, controlled and operable supporting transformation without unnecessary complexity.

Common triggers
✦ Hybrid connectivity and identity are inconsistent
✦ Provisioning is manual and slow
✦ Standards differ across teams and suppliers
✦ Monitoring and recovery patterns are weak
✦ Cloud adoption needs a safe platform foundation

Service Constraints

Requires access to network, identity and cloud environments. Procurement and long-term managed operations are out of scope unless separately commissioned.

Remote-first; onsite workshops by agreement.

Engaging Stellarmann

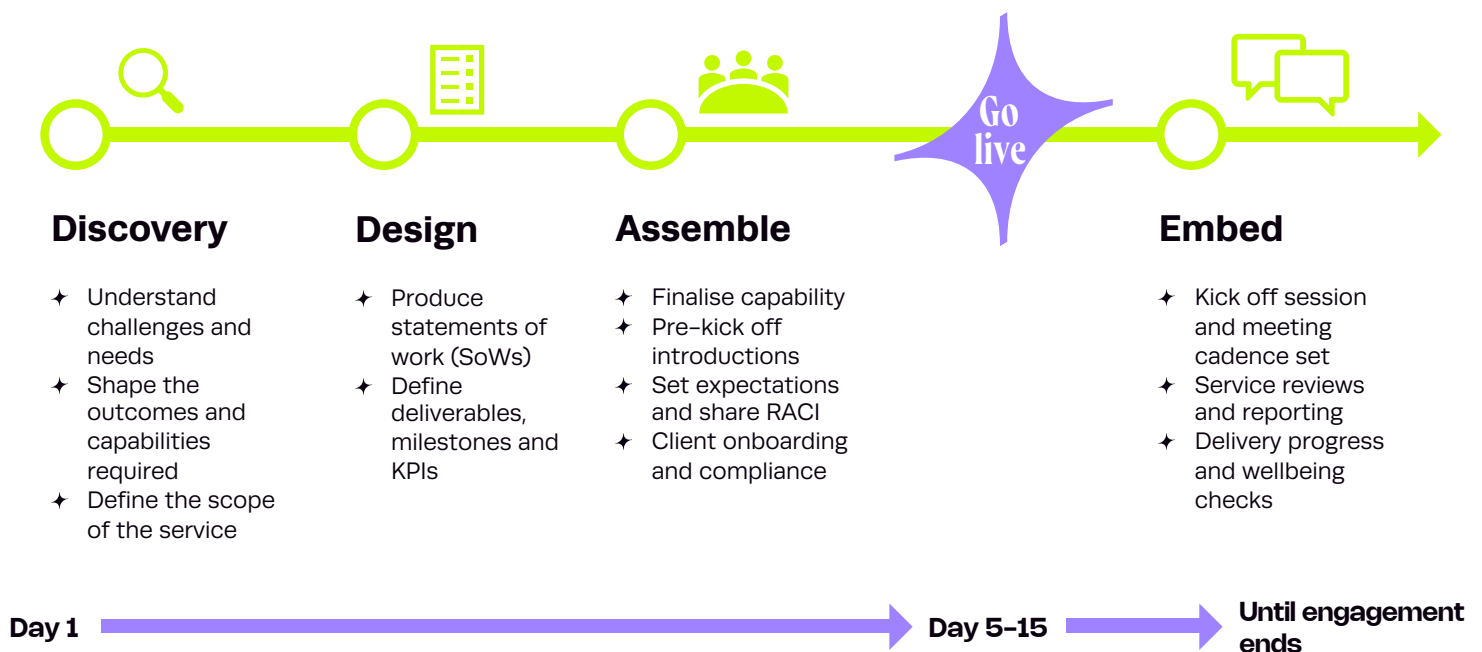

Ordering

Our services can be engaged inline with the G-Cloud 15 framework call off terms. Please get in touch initially by emailing gcloud@stellarmann.com

Service Delivery

We assign each of our clients a dedicated, free of charge engagement delivery manager who will be responsible for shaping the services, outcome and deliverables as well as for ensuring the quality-of-service delivery.

We will guide you through our comprehensive four stage service delivery process that takes our buyers from initial discovery to the end of the engagement.

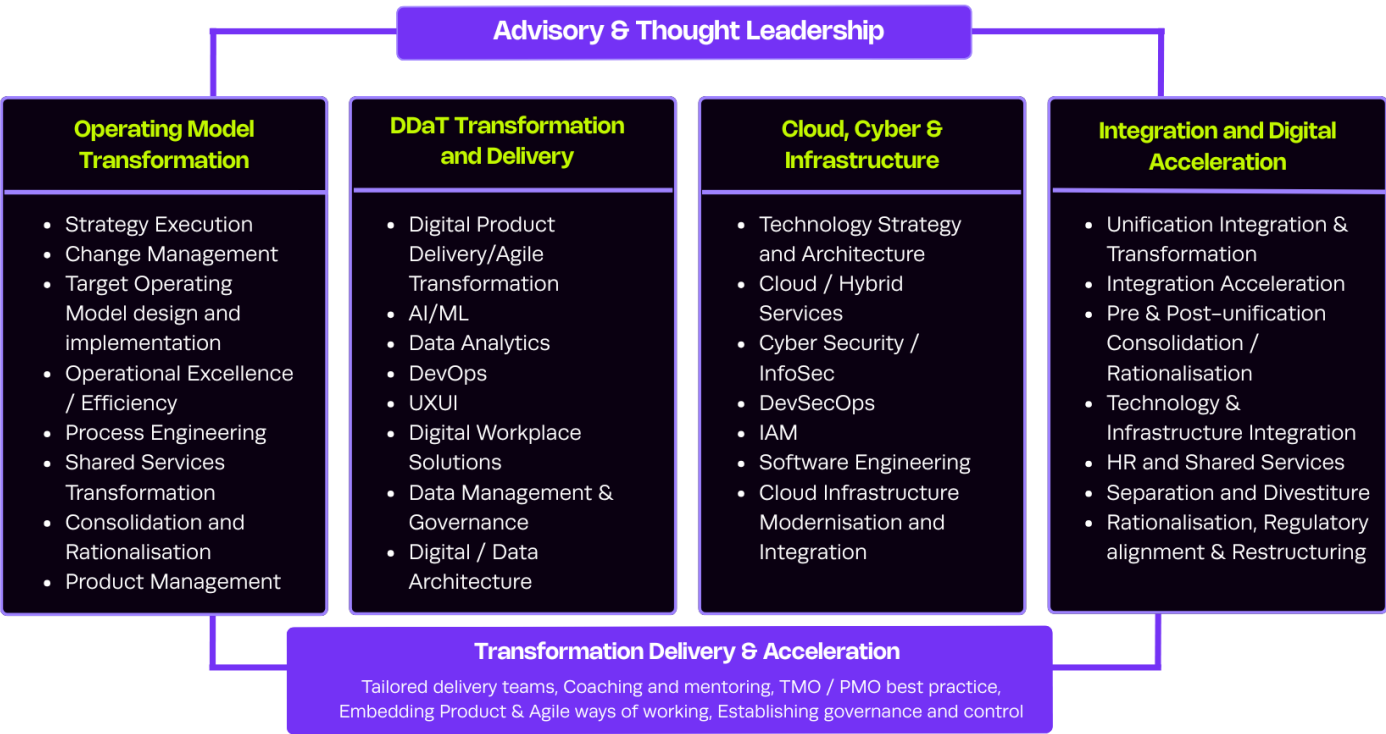

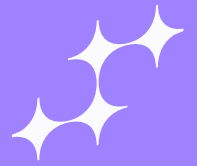

Stellarmann Services Overview

Our breadth of capability across technology and business transformation enables us to build long-term partnerships and support customers in achieving strategic outcomes, whether you need targeted expertise for a critical workstream or end-to-end delivery across a complex programme. We help organisations lean on exceptional expertise while putting stronger accountability behind delivery, supported by clear governance in a rapidly evolving delivery landscape.

Services are designed to accelerate progress while minimising unnecessary complexity: we mobilise quickly (often within 10–15 working days) embed as “one team” with client and supplier stakeholders and transfer knowledge so capability remains with your organisation. Every engagement involves a shared-risk commercial approach, anchored to agreed deliverables and acceptance criteria, supported by dedicated Engagement Delivery Management to provide delivery assurance, governance and clear reporting.

We do the hard yards of delivery alongside you. Bringing clarity, momentum and execution to every stage of the journey.
