

Crown Commercial Services G-Cloud 15 Framework

Service Definition | Lot 3 – Cloud Support Services

Cloud Architecture and Solution Design

Introduction to Stellarmann

Bespoke built, expert led, delivery driven

Stellarmann is a specialist technology and business transformation consultancy, supporting public and private sector organisations to deliver complex change with confidence.

We launched in 2020 to help clients access exceptional expertise while putting stronger accountability behind delivery, supported by clear governance in a rapidly evolving delivery landscape.

Since then, we've supported multi-million-pound programmes for major government departments and organisations, including HMRC and The Crown Estate, by building and leading high-performing outcome-focused teams matched to each engagement.

Our shared-risk commercial approach keeps delivery anchored to agreed outcomes and measurable progress, while our Engagement Delivery Management team provides hands-on oversight shaping robust Statements of Work, maintaining alignment to deliverables and acceptance criteria and reducing the operational burden on client-side leaders.

Cloud Architecture and Solution Design

Service Description

Cloud delivery slows when architectural decisions are unclear, legacy constraints dominate and suppliers work to different standards. This leads to inconsistent designs, repeated rework and increased operational risk.

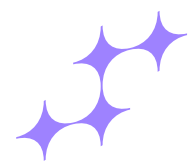

Stellarmann designs cloud architectures that are practical, supportable and aligned with organisational constraints. We begin by assessing the current landscape: platforms, security posture, data flows, integration points, networks, identities and resilience patterns. We clarify outcomes and define the minimum guardrails needed to keep services secure and operable.

We design architectures across domains identity, data, integration, applications, infrastructure and document viable options with trade offs, costs and risks. We embed Zero Trust principles, resilience patterns, interoperability and governance aligned to GDS standards.

We support design authority, align suppliers and produce reusable design artefacts that accelerate approvals and reduce unnecessary complexity. We ensure operability is designed in from the outset through logging, monitoring, runbooks, support models and cost controls.

The outcome is predictable, secure, scalable cloud solutions that reduce risk and speed delivery.

We leave behind patterns, decisions and ownership so teams can sustain architectural practice.

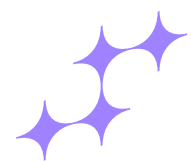

Features

- ✦ Cloud architecture assessment with risks, constraints and opportunities
- ✦ Landing zone and platform patterns aligned to GDS standards
- ✦ Zero Trust identity and access architecture
- ✦ Network and connectivity design for hybrid and multi cloud
- ✦ Resilience, backup and recovery patterns defined and tested
- ✦ Interoperability and integration patterns across domains
- ✦ Security and compliance controls embedded in designs
- ✦ Cost and operability guardrails built into architecture
- ✦ Lightweight design authority and governance support
- ✦ Reusable architecture artefacts, diagrams and documentation

Benefits

- ✦ Faster approvals through clear, reviewable architecture
- ✦ Reduced design and delivery risk
- ✦ Consistent patterns improve interoperability and reuse
- ✦ Zero Trust controls reduce security exposure
- ✦ Resilience patterns improve service continuity
- ✦ Reduced rework through early architectural clarity
- ✦ Clear decisions accelerate multi supplier alignment
- ✦ Cost controls improve cloud efficiency
- ✦ Operability designed in from the start
- ✦ Architectural capability sustained after handover

How this enables better outcomes

Cloud architecture underpins secure, scalable cloud delivery. It connects with governance, platform engineering, DevOps, security, testing and change to ensure designs are operable, compliant and ready for multi supplier delivery enabling transformation without unnecessary complexity.

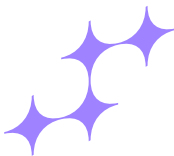

Common triggers
✦ Unclear or inconsistent architectural decisions
✦ Legacy constraints blocking cloud delivery
✦ Missing security, IAM or Zero-Trust patterns
✦ Rising cloud costs without control
✦ Delivery delays from late architectural decisions

Service Constraints

Requires access to cloud environments, architecture artefacts, security policies and supplier teams. Tooling procurement is out of scope unless separately commissioned.

Remote-first delivery; onsite workshops by agreement.

Out-of-hours support available by agreement.

Engaging Stellarmann

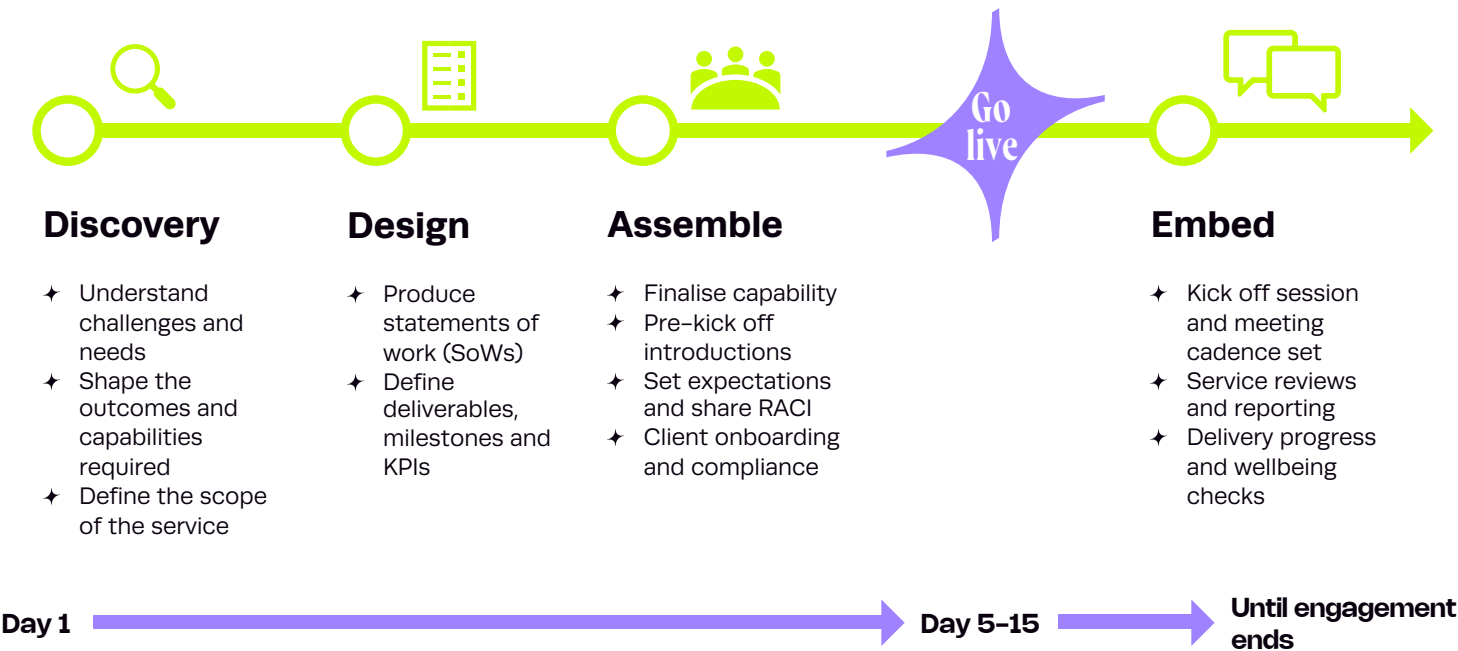

Ordering

Our services can be engaged inline with the G-Cloud 15 framework call off terms. Please get in touch initially by emailing gcloud@stellarmann.com

Service Delivery

We assign each of our clients a dedicated, free of charge engagement delivery manager who will be responsible for shaping the services, outcome and deliverables as well as for ensuring the quality-of-service delivery.

We will guide you through our comprehensive four stage service delivery process that takes our buyers from initial discovery to the end of the engagement.

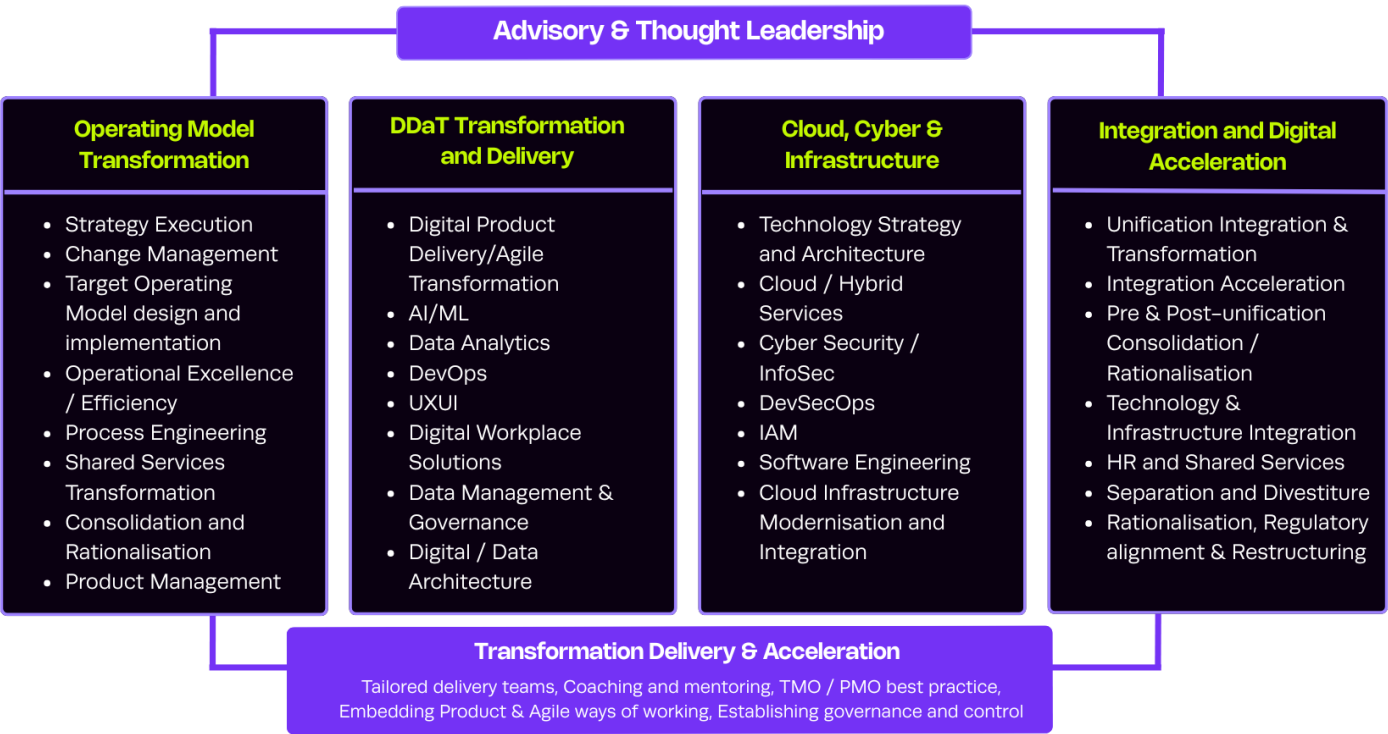

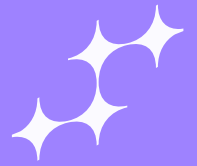

Stellarmann Services Overview

Our breadth of capability across technology and business transformation enables us to build long-term partnerships and support customers in achieving strategic outcomes, whether you need targeted expertise for a critical workstream or end-to-end delivery across a complex programme. We help organisations lean on exceptional expertise while putting stronger accountability behind delivery, supported by clear governance in a rapidly evolving delivery landscape.

Services are designed to accelerate progress while minimising unnecessary complexity: we mobilise quickly (often within 10–15 working days) embed as “one team” with client and supplier stakeholders and transfer knowledge so capability remains with your organisation. Every engagement involves a shared-risk commercial approach, anchored to agreed deliverables and acceptance criteria, supported by dedicated Engagement Delivery Management to provide delivery assurance, governance and clear reporting.

We do the hard yards of delivery alongside you. Bringing clarity, momentum and execution to every stage of the journey.
