

Crown Commercial Services G-Cloud 15 Framework

Service Definition | Lot 3 – Cloud Support Services

Enterprise Integration and Transition

Introduction to Stellarmann

Bespoke built, expert led, delivery driven

Stellarmann is a specialist technology and business transformation consultancy, supporting public and private sector organisations to deliver complex change with confidence.

We launched in 2020 to help clients access exceptional expertise while putting stronger accountability behind delivery, supported by clear governance in a rapidly evolving delivery landscape.

Since then, we've supported multi-million-pound programmes for major government departments and organisations, including HMRC and The Crown Estate, by building and leading high-performing outcome-focused teams matched to each engagement.

Our shared-risk commercial approach keeps delivery anchored to agreed outcomes and measurable progress, while our Engagement Delivery Management team provides hands-on oversight shaping robust Statements of Work, maintaining alignment to deliverables and acceptance criteria and reducing the operational burden on client-side leaders.

Enterprise Integration and Transition

Service Description

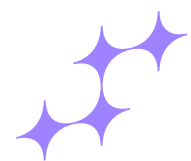

Unification, separations and reorganisations create high risk technology change. Without clear sequencing, dependency visibility and day one planning, service continuity suffers and costs rise.

Stellarmann provides structured integration, separation and unification support focused on predictability and control. We define scope, day one requirements, constraints and key stakeholders. We map dependencies across identity, data, networks, applications and suppliers; identifying critical paths and risks.

We build a realistic plan: sequencing, cutover approach, readiness criteria, contingency options and a governance cadence that supports timely decisions. We coordinate suppliers and internal teams so responsibilities are explicit and handoffs are managed.

Communication and readiness reporting support leaders: clear decision packs, RAID control and evidence for go/no-go decisions. We hand over runbooks, documentation and an operating approach for the integrated environment. The outcome is maintained continuity and a smoother transition with fewer surprises without unnecessary complexity.

We leave behind documentation and clear ownership so the approach is sustained after the engagement.

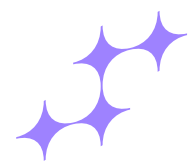

Features

- ✦ Scope, day one needs and constraints defined clearly
- ✦ Integration or separation strategy shaped with practical sequencing
- ✦ Day one cutovers planned with rollback and contingencies
- ✦ Critical paths and dependencies mapped across domains
- ✦ Identity, data and network changes planned safely
- ✦ Suppliers coordinated through a shared governance cadence
- ✦ Risk controls and workable contingency plans established
- ✦ Communications planned to minimise disruption and confusion
- ✦ Readiness reporting and decision packs produced for leaders
- ✦ Templates handed over and teams coached to sustain changes

Benefits

- ✦ Day one planning protects service continuity
- ✦ Dependencies and contingencies reduce transition risk
- ✦ Roles and accountabilities made explicit across all parties
- ✦ Sequencing and reporting make milestones predictable
- ✦ Suppliers work to a shared cadence and obligations
- ✦ Plans focus effort where it delivers most value
- ✦ Transparent reporting improves confidence and engagement
- ✦ Decision packs provide clear evidence for approvals
- ✦ Unification removes duplication and unnecessary cost
- ✦ Handover ensures operations can be sustained long term

How this enables better outcomes

Enterprise integration, transition and unification connects operating model, governance, architecture, cloud and change services. It provides coordination and evidence to protect continuity while delivering transformation without unnecessary complexity.

Common triggers
✦ Unification or restructure requires day one technology readiness
✦ Dependencies and ownership are unclear across suppliers
✦ Cutover risk needs stronger planning and evidence
✦ Leadership needs clear reporting and decisions points
✦ Separation requires controlled changes to access, data and identity

Service Constraints

Subject to timely access to systems information, supplier participation and agreed change windows. Legal and HR consultations remain client led. Engineering build is out of scope unless separately commissioned.

Remote-first delivery; onsite events and cutovers by agreement.

Engaging Stellarmann

Ordering

Our services can be engaged inline with the G-Cloud 15 framework call off terms. Please get in touch initially by emailing gcloud@stellarmann.com

Service Delivery

We assign each of our clients a dedicated, free of charge engagement delivery manager who will be responsible for shaping the services, outcome and deliverables as well as for ensuring the quality-of-service delivery.

We will guide you through our comprehensive four stage service delivery process that takes our buyers from initial discovery to the end of the engagement.

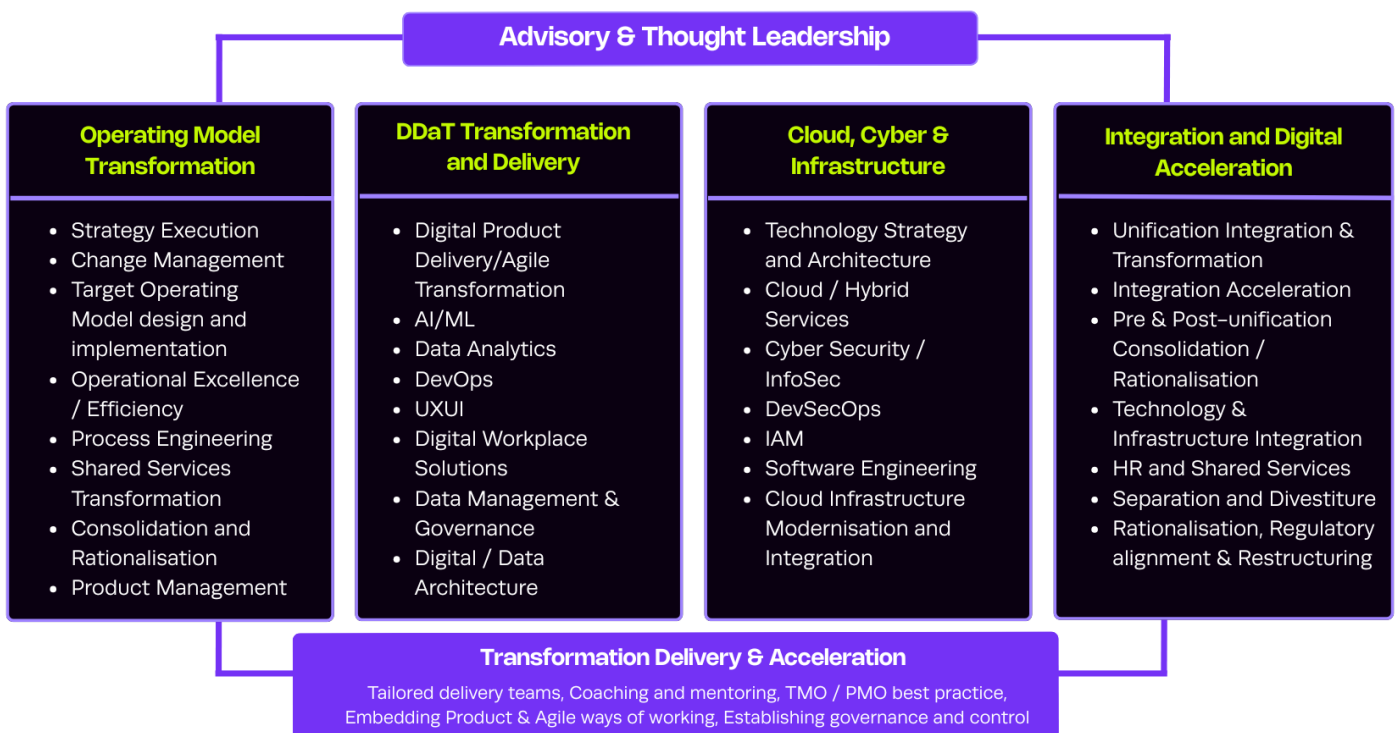

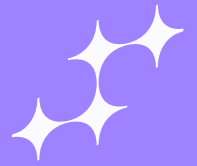

Stellarmann Services Overview

Our breadth of capability across technology and business transformation enables us to build long-term partnerships and support customers in achieving strategic outcomes, whether you need targeted expertise for a critical workstream or end-to-end delivery across a complex programme. We help organisations lean on exceptional expertise while putting stronger accountability behind delivery, supported by clear governance in a rapidly evolving delivery landscape.

Services are designed to accelerate progress while minimising unnecessary complexity: we mobilise quickly (often within 10–15 working days) embed as “one team” with client and supplier stakeholders and transfer knowledge so capability remains with your organisation. Every engagement involves a shared-risk commercial approach, anchored to agreed deliverables and acceptance criteria, supported by dedicated Engagement Delivery Management to provide delivery assurance, governance and clear reporting.

We do the hard yards of delivery alongside you. Bringing clarity, momentum and execution to every stage of the journey.
