www.ASSETforSchools.com

This product is based upon the same data that underlies Department for Education (DfE) Analyse School Performance (ASP) service. Access has been granted following satisfaction of the security and usage criteria set out in DfE's ASP Accreditation Route.

ASSET for Schools has been supporting schools across the county since 2006. ASSET for Schools has worked with an experienced Virtual School headteacher to develop this system. Many Virtual School Headteachers, VS Data Managers, Education Advisors, Finance Officers have made amazing contributions to add more features to suit their needs over the years.

SERVICE OVERVIEW

ASSET for Virtual Schools Information Management System is a fully integrated suite of modules designed to make your life easier! All your data is held in one place, securely in the Cloud. Different modules can easily communicate with each other. This means information entered in one part of the system will automatically be pulled into all modules as necessary – no more entering data twice.

There is a sophisticated filtering system so you can quickly drill down to pupil level data. This is combined with a wide variety of reports to suit all types of end user.

Another feature is that your finance system can be integrated to give you seamless monitoring of Pupil Premium payments and evaluation of their effectiveness.

We have been having access to Department for Education data to help schools analyse their performance using pupil attainment and progress data.

AWARD-WINNING SOFTWARE

Exciting News!

We are thrilled to share some exciting news with you!

Stat Solutions Ltd has been recognised as the 99th fastest-growing technology supplier in the UK public sector in the Tussell Tech 200 rankings.

This achievement reflects our commitment to delivering innovative, data-driven solutions that empower the public sector.

Thank you for being part of our journey.

We look forward to continuing to support your success.

Information Management System

ASSET for Virtual Schools is an information management system designed by our award-winning school data management team, experienced Virtual School Head Teachers, Virtual school Data Manager and Finance Officers. It is an easy to use, intuitive system which is powered by sophisticated data analysis.

SERVICE FEATURES

Navigation around the product is easy and intuitive. Everything starts with the dashboard page.

Reporting functionality is extensive. Reports can easily be generated for individual pupils, small groups or the whole VS cohort. Tables and graphs can be exported and used in, for example, the Virtual School Annual Report.

Clients can log in on a variety of devices and still have the full user experience. It works well on tablets, smartphones, laptops and desktop computers.

Navigation around the product is easy and intuitive. IMS starts with bespoke dashboard page.

We offer a fully integrated platform where clients can access the ePEP, attendance monitoring, data analysis and the information management system all in one place.

- ▶ All of your Virtual School Data in one place.
- ▶ Sophisticated report generating system.
- ▶ Bring your data to life with ASSET
- ▶ Ofsted ready reporting
- ▶ No more Spreadsheets!

CLIENT BENEFITS

We offer a fully integrated platform where clients can access the PEP for Success, attendance monitoring, data analysis and the information management system all in one place. It streamlines your information systems – no more keeping information in different spreadsheets controlled by different people.

Asset for Virtual Schools is a bespoke system – it can be tailored to suit your specific needs – in content, in the way alerts are set up, in the way it looks with your own branding.

Sophisticated and powerful analysis at your fingertips. You can produce a range of report types to suit a range of audiences. You can compare the data against any other data set in the system.

You can easily generate all the data you need to produce your Annual Report as well as generate all the data you need for an ILACS Inspection.

Reports can be saved in multiple formats such as pdf or csv.

A wide variety of reports are available which can be tailored for different audiences.

ASSET for Virtual Schools is encrypted by our SSL certificate to 256 standard, any data transferred to us can be done securely through our website.

The data is also encrypted in transit and in storage, ensure that your data is safe with us.

Navigation around the product is easy and intuitive.

Clients can log in on a variety of devices and still have the full user experience. It works well on tablets, smartphones, laptops and desktop computers.

ISO 27001:2022 and Cyber Essential Plus certified and WCAG 2.1 AAA Complaint.

PROGRESS & ATTAINMENT

Huge range of reports available at Virtual school and pupil level.
Compare your data with LAC National data and other LAs.

DATA SECURITY

The key protocols we have in place for the product and services:

- Email notifications, flag notifications (in ASSET) and phone calls
- Quality Assurance
- Ensuring no names or key details are shared over the phone or via email
- For communication and notifications to identify pupils we use pseudonymisation
- Names and further details are available to view in the secure software only
- Emails only state the type of information available
- Ensuring the person on the line is the right person
- For phone calls, to identify themselves, we use a two-part key (in order to confirm that they are speaking with the right people)
- Policies and Procedures are reviewed and updated at least every 6 months to ensure that the right actions are being taken with regards to safeguarding, data protection, security, complaints, incidents, quality, corrective and preventative action and more.

SECURITY PROTOCOL

Our security protocols for data security include:

- ASSET for Schools website is securely protected by 256 SSL Advanced Encryption Standard
- Background checks on staff who have access to any data
- Annual IT Health Checks, including penetration tests conducted internally and externally
- Data back-ups to our tier 4 secure Data Centres in London and Cardiff
- GDPR data breach, deletion and rectification processes and procedures
- Business Continuity and Disaster Recovery plan tested bi-annually
- Physical and Environmental Security, Privacy, Incident Reporting, Email Acceptable Use, Email Attachments, Confidentiality, Website, Clear Desk, Clear Screen and Password Policies are in place
- CCTV, Outer Building fob key access and monitored concierge desk, Office Pin Code and fob key access and Separate designated and logged fob key access to our server rooms
- BitLocker passcodes on all PC's (Management or IT must log in each PC before use on a daily basis)
- All users have individual account access and limited access to only suitable files

ACCREDITATIONS

We are pleased to inform you of the below Accreditations and Certifications:

**Cyber
Essentials
Certified**

We protect ourselves from common online security threats.

**ASP Data
Supplier**

"This product is based upon the same data that underlies DfE's Analyse School Performance (ASP) service. Access has been granted following satisfaction of the security and usage criteria set out in DfE's ASP Accreditation Route".

**ISO 27001
Certified**

We are ISO 27001 certified. Our annual audit is conducted by the British Assessment Bureau.

**IT Health
Check**

Several internal and external penetration tests. We had a certified external service provider perform a check on all of our applications and infrastructure to identify risk. We passed with flying colours.

**QG GDPR
Certified**

Our organisation was assessed and certified as meeting the QG-GDPR Management Standards.

We have various accreditations and checks performed to ensure we meet all legislation and security measures within our company and across our systems and software. All data is stored and process in the UK in our SSL website which is ISO 27001 certified, Cyber Essentials Certified, QG GDPR Certified software. ASSET undergoes yearly IT Health Check's (ITHC).
