

Brave & Heart – Pricing Document 2026

Pricing Document

Service Pricing Considerations ...

- Pricing for configuration and implementation of this service is based on the Rate Card costs which are available on the Digital Marketplace. Licensing and support prices are included within this document.
- We will work closely with you to properly understand your requirements, or help you define them if required, and agree exactly which services will best deliver the optimum outputs for your organisation.
- Working together in combined teams helps to ensure the best outcomes for your organisation, plus cross-skilling as the project progresses. The duration of the project and services required will therefore be developed with your outcomes and the level of input from your own team in mind.
- We will invoice you monthly in arrears, based on the services provided at the unit rate.
- Any changes requested will be managed through change management as required.
- Our invoices are to be paid within 30 days.
- VAT is not included in our published rates.
- We use a blended day rate of £1200 for all our services, time is billed by our team in 15 minute increments at a minimum.
