Discount Packages - Service Bundles

Designed from our experience supporting leading transport bodies and local authorities, **these packages include everything you need to quickly plan and analyse multi-modal transport networks**. Included is a dedicated account manager who will provide customised setup, training, and support.

Enterprise Hosted Podaris Platform

- *Branded fully hosted cloud-based web platform*
- *Create an unlimited number of engagements with free viewers and commenters*
- *Create unlimited projects for for your local authority or council only*
- *Ready-to-use and regularly updated road network with average historical traffic speeds (both the speeds and the road network can be replaced with custom data)*
- *Pre-loaded public transport networks to allow any officer to get up and running with planning and analysis from day one.*
- *Pre-loaded demographic datasets (census-derived population data, key Points of Interest, e.g. healthcare, schools)*
- **Up to 10,000 street-based isochrones per month**
- **Podaris:Insight - connectivity and accessibility analysis add-on included**

Enhanced Enterprise Support

- *Guaranteed same day business response with a dedicated account manager*
- **With all of the capabilities listed in the service definition document for up to 5 hours a week, for a total of 40 hours a year.** Additional hours can be purchased as a package or on an hourly basis at any time. See page 4 for additional hours package pricing.
- *Provides expert support to help with anything from dataset imports to questions around bus network analysis*

Training, Onboarding, and Setup

- *Customised three-step success plan, with regular check-ins, and help to set and measure KPIs to document your return on investment*
- *First 60 day onboarding with training for all users through group and individual workshops, project-assisted training, and video guides*
- *Custom dataset identification and integration (includes schedule, demographic, speed, and ticketing data)*

Marketing Terms

- *Willingness to work with Podaris to develop a case study, mutually agreeable press release, ability to use Customer as a reference*

Authority type	MAU	Annual Cost
LTA (County / City / District Council, Unitary Authority)	10	£27,500.00
PTE / RTP / Combined Authority (Population < 3m)	20	£50,000.00

Podaris Standard Pricing

The Podaris Enterprise platform is designed to be low-cost, flexible, and easily upgradeable. There are three core components to our pricing:

Platform License Fees

The platform license fee provides a dedicated base instance. Monthly Active Users can create and participate in an unlimited number of projects. Basic technical support and free access to updates is included. A number of add-on services are available and, if purchased, accessible to all licensed users.

Description	Annual Cost
Dedicated Podaris:Enterprise instance	£20,000.00
Monthly active users (MAU) who can create and edit projects	£1,500.00
Guest collaborators who can only view or comment on projects	Free
Podaris:Insight - Connectivity and Accessibility Analysis Add-On	£20,000.00

Advanced Functionality with Usage-Based Billing

Certain functionality is billed on a per-use basis, with meaningful free monthly quotas included. Additional usage is billed on a pay-as-you-go basis, invoiced monthly. Both per-user caps and total billing allowances can be set.

Description	Monthly quota	Additional usage
Street-based isochrones	100 isochrone creations* * large isochrones with more than 1,000 stations in the output count as one request for each 1,000 stations	£1.00 per isochrone
Demand simulations	60 cloud simulation-minutes	£1.00 per cloud simulation-minute
Tileset hosting	10,000 tile views	£2.00 per 1,000 tile views

→ **CREATE UNLIMITED PROJECTS FOR ANY SCHEME OR IDEA**

→ **YOUR OWN BRANDED PORTAL FOR STAKEHOLDER ENGAGEMENT**

→ **ADVANCED CLOUD-BASED VERSION CONTROL**

→ **EASILY IMPORT AND EXPORT DATA USING COMMON FORMATS**

→ **INCLUDED DATASETS MAKE IT EFFORTLESS TO GET STARTED**

→ **COLLABORATION BY DEFAULT FOR OFFICERS AND CONSULTANTS**
